

the plan has included interdisciplinary team meetings with the Keweenaw National Historical Park Advisory Commission, interested agencies, organizations, and individuals. Meetings with the general public were conducted in February and May, 1995. The scoping process has indicated that the proposals being considered may result in significant impacts to the human environment and may constitute a major Federal action significantly affecting the quality of the human environment. Therefore, the preparation of an EIS in conjunction with the plan is appropriate.

The General Management Plan and EIS will investigate alternatives ranging from no action to a variety of development and management proposals designed to guide visitor use, resource protection, and partnership relationships. Federal, State and local agencies, and other individuals or organizations who may be interested in, or affected by, the future development of Keweenaw National Historical Park are further invited to participate in refining or identifying issues. Written comments and suggestions concerning preparation of the EIS should be sent to: Superintendent, Keweenaw National Historical Park, 100 Red Jacket Road (2nd floor), Calumet, Michigan 49913. William Schenk, Field Director for the Midwest Field Area in Omaha, Nebraska is the responsible official.

Preparation of the plan and EIS is expected to take about 12 months. The draft plan and EIS should be available for public review by spring, 1997 with the final plan and EIS and Record of Decision expected to be completed by fall, 1997. Schedules for public meetings to solicit comments on the draft plan will be announced at the time of plan completion.

Dated: November 22, 1996.
William W. Schenk,
Field Director, Midwest Field Area.
