*Title:* Revision of Parts 22 and 90 to Facilitate Development of Paging Systems and Implementation of Section 309(J) of the Communications Act.

*Form No.:* N/A.

*Type of Review:* Reinstatement with change of a previously approved collection.

*Number of Respondents:* 4,500.

*Estimated Time Per Response:* 0.08 hour.

*Total Annual Burden:* 360 hours.

*Needs and Uses:* On April 22, 1996, the Commission adopted an Order that prescribes interim paging rules to be effective upon publication in the Federal Register, until the final Report and Order and rules are adopted. The interim Order partially lifted the freeze on paging applications, and allowed applications to be filed by current private carrier paging and common carrier paging licensees for additional licenses. To insure that the applicants are incumbent licensees, they are required to submit a certification stating that they currently have an operating system, and that the application is for an addition or modification to the current system within 65 kilometers (40 miles) of the current operating transmission site and are the same channel as the current operating transmission site. On June 10, 1996, the Commission adopted an Order on Reconsideration of First Report and Order that allows the grant of some additional applications that were not contemplated in the Order adopted on April 22, 1996. These additional incumbents should also be allowed the opportunity to expand their systems.

**Auction of Cellular Unserved Area Licenses (Auction No. 12)**

**AGENCY:** Federal Communications Commission.

**ACTION:** Notice.

**SUMMARY:** This Public Notice provides guidance on determining eligibility to participate in Auction No. 12 for certain cellular unserved service area licenses. The Wireless Telecommunications Bureau has received several inquiries concerning eligibility since announcing Auction No. 12. This Public Notice is intended to assist interested entities in ascertaining whether they are eligible to participate in Auction No. 12, and if so, on which licenses they may bid.

**FOR FURTHER INFORMATION CONTACT:** Thomas Horan, Wireless Telecommunications Bureau, (202) 418-0660.

**SUPPLEMENTARY INFORMATION:** This is a summary of Public Notice DA 96-1959, "Auction of Cellular Unserved Area Licenses (Auction No. 12)—Wireless Telecommunications Bureau Provides Guidance on Eligibility for Cellular Unserved Service Area Auction,"

released November 22, 1996. The complete text of the Public Notice is available for inspection and copying during normal business hours in the FCC Reference Center (Room 239), 1919 M Street, N.W., Washington, D.C. and also may be purchased from the Commission's copy contractor, International Transcription Service, (202) 857-3800, 2100 M Street, N.W., Suite 140, Washington, D.C. 20037.

**Synopsis of the Public Notice**

1. An auction of certain licenses for cellular unserved service areas is scheduled to begin on January 13, 1997. See Public Notice DA 96-1850, "FCC Issues Procedures, Terms and Conditions for January 13, 1997 Auction of Cellular Phase I and Phase II Service Areas," released November 8, 1996 (Auction Public Notice). This auction will be the twelfth auction scheduled by the Commission and will be referred to as Auction No. 12. Eligibility is limited to those entities who previously filed an FCC Form 464 or 464-A within the time-frame designated in 47 CFR § 22.949 for a market and channel block whose license is being auctioned in this auction.

2. Any entity who timely filed an FCC Form 464 or 464-A who wishes to participate in the auction of these licenses also must submit an FCC Form 175 by December 16, 1996. Thus, the number of entities eligible to participate in this auction is limited. Further, the entities who are eligible to participate in this auction are able to bid only for the markets and channel blocks previously specified on their FCC Form 464s or 464-As. An applicant is required to list the markets and channel blocks in which it seeks to bid on the FCC Form 175. A list of licenses being auctioned and those eligible to apply for each license is provided in Attachment A to the Auction Public Notice.

3. Each applicant has an obligation to keep a current FCC Form 464 or 464-A on file with the Commission. Any applicant whose FCC Form 464 or 464-A is not current must file the appropriate amendments prior to filing the FCC Form 175. The Commission has requested that any applicant for Auction No. 12 not on the list of eligible participants attach an exhibit to its FCC Form 175 explaining its relationship to the entity on Attachment A through which it derives its eligibility to participate.

4. The following examples are provided for illustration:

*Example 1*

A Corp timely filed an FCC Form 464 for MSA 1, channel block B. After the issuance

of a Public Notice announcing an auction of cellular unserved area licenses, A Corp timely filed an FCC Form 175. In response to Item 11, "Markets and Frequency Blocks/Channels for which you want to bid," A Corp selected the "All" Box on its FCC Form 175.

A Corp's application will be considered incomplete. An entity may only apply for bidding eligibility on licenses in which it has timely filed an FCC Form 464 or 464-A. In A Corp's situation, it can only seek bidding eligibility for MSA 1, channel block B. Furthermore, because the FCC Form 464 or 464-A filing deadline has passed for the licenses offered in the current auction, A Corp cannot obtain bidding eligibility for any license in the auction other than MSA 1, channel block B by now filing an FCC Form 464 or 464-A.

#### Example 2

X Corp timely filed an FCC Form 464 for RSA 1, channel block A; Y Corp timely filed an FCC Form 464 for RSA 2, channel block B. X Corp and Y Corp were wholly owned subsidiaries of Z Corp. After the issuance of a Public Notice announcing an auction of cellular unserved area licenses, Z Corp timely filed an FCC Form 175 to seek bidding eligibility for RSA 1, channel block A and RSA 2, channel block B. Attached to Z Corp's FCC Form 175 is an exhibit explaining Z Corp's relationship to X Corp and Y Corp.

Z Corp will be eligible to bid on the license for both RSA 1, channel block A and RSA 2, channel block B (provided Z Corp timely filed its upfront payment and has a sufficient bidding activity level to bid for both licenses). Z Corp was able to derive its eligibility to participate in the auction through the FCC Form 464s filed by X Corp and Y Corp.
