The Uniform Act applies to all programs or projects undertaken by Federal agencies or with Federal

The FHWA is the lead agency for implementing the provisions of the Uniform Act, and has issued governmentwide implementing regulations at 49 CFR part 24.

The following 17 Federal departments and agencies have, by cross reference, adopted the governmentwide regulations. (The governmentwide regulations also apply to other agencies within DOT that are covered by the Uniform Act.):

- Department of Agriculture
- Department of Commerce
- Department of Defense

 Tennessee Valley Authority

Section 202(b) of the Uniform Act provides that as an alternative to being paid for actual moving and related expenses, a displaced individual or family may elect payment for moving expenses on the basis of a moving expense and dislocation allowance schedule established by the head of the lead agency. The governmentwide regulations at 49 CFR 24.302 provide that the FHWA will develop, approve, maintain and update this schedule, as appropriate.

The purpose of this notice is to update the current schedule published on June 14, 1991 (56 FR 27549). The schedule is being updated to reflect the increased costs associated with moving personal property and is developed from data provided by State highway agencies. This update increases the schedule amounts in the States of Alabama, Alaska, Arizona, California, Florida, Hawaii, Iowa, Kansas, Kentucky, Michigan, Mississippi, Missouri, Montana, Nebraska, Nevada, New York, North Carolina, North Dakota, Oklahoma, Oregon, South Carolina, South Dakota, Virginia, Washington, and Wisconsin. The following exceptions and limitations apply to this schedule:

1. The expense and dislocation allowance to a person whose residential move is performed by an agency at no cost to the person shall be limited to \$50.00.
2. An occupant will be paid on an actual cost basis for moving his or her

mobile home from the displacement site. In addition, a reasonable payment to the occupant for packing and securing personal property for the move may be paid at the agency's discretion.

3. The expense and dislocation allowance to a person with minimal personal possessions who is in occupancy of a dormitory style room shared by two or more other unrelated persons shall be limited to \$50.00.

4. An occupant who moves from a mobile home may be paid for the removal of personal property from the mobile home in accordance with the moving and dislocation allowance payment schedule.

The schedule continues to be based on the "number of rooms of furniture" owned by a displaced individual or family and was developed from data provided by State highway agencies. In the interest of fairness and accuracy, and to encourage the use of the schedule (and thereby simplify the computation and payment of moving expenses), an agency should increase the room count for purposes of applying the schedule if the amount of possessions in a single room or space actually constitute more than the normal contents of one room of furniture or other personal property. For example, a basement may count as two rooms if the equivalent of two rooms worth of possessions is located in the basement. In addition, an agency may elect to pay for items stored outside the dwelling unit by adding the appropriate number of rooms.

Authority: 42 U.S.C. 4622(b) and 4633(b); 49 CFR 1.48 and 24.302.

Issued on: December 2, 1996.

Federal Highway Administrator.

National Highway Traffic Safety Administration (NHTSA)

Denial of Motor Vehicle Defect Petition

This notice sets forth the reasons for the denial of a petition submitted to NHTSA under 49 U.S.C. 30162 for the Agency to commence a proceeding to

determine the existence of a defect related to motor vehicle safety.

In a letter dated May 17, 1966, Mary Walsh-Dempsey, an attorney in Scranton, Pennsylvania, petitioned NHTSA to initiate a defect investigation on 1976 Chevrolet C10 trucks concerning blade separation of the engine cooling fan installed as original equipment and sold as a replacement part. The petitioner identified the fan by part number 336032 (subject fan). As an evidence of the alleged defect, the

petitioner cites a September 1993 incident in which David Lewis was struck by a piece of fan blade, resulting in his death.

The subject fan is a flexible blade engine cooling fan commonly referred to as a "flex fan." The flex fan was used by automobile manufacturers as a way to reduce the operating load on engines. The flexible metal blades, which are attached to the fan hub or "spider" by rivets, are designed to flex or "flatten out" as the engine speed is increased,
