Fish and Wildlife Service

Notice of Intent To Prepare a Comprehensive Management Plan and Associated Environmental Document

SUMMARY: This notice advises the public that the U.S. Fish and Wildlife Service (Service) intends to gather information necessary to prepare a Comprehensive Management Plan (CMP) and an environmental document (environmental assessment or environmental impact statement) for Little Pend Oreille National Wildlife Refuge, Stevens County, Washington. The Service is furnishing this notice in compliance with service CMP policy and the National Environmental Policy Act (NEPA) and implementing regulations: (1) To advise other agencies and the public of our intentions, and (2) to obtain suggestions and information on the scope of issues to include in the environmental document.

DATES: Written comments should be received on or before January 13, 1997.

ADDRESSES: Address comments and requests for more information to: Refuge Manager, Little Pend Oreille National Wildlife Refuge, 1310 Bear Creek Road, Colville, Washington 99114.

SUPPLEMENTARY INFORMATION: The Service started the comprehensive management planning process for Little Pend Oreille National Wildlife Refuge (Little Pend Oreille NWR) in 1995. We held open houses at the Refuge headquarters in July and October 1995, and a public meeting in Colville, Washington in October 1995. We recorded issues and concerns expressed by people at these gatherings and have also received written comments. The Service informed people of the open houses and meeting through special mailings, newspaper articles, and radio announcements. Comments received to date will be considered in the development of the CMP and NEPA documentation.

It is U.S. Fish and Wildlife Service policy to have all lands within the National Wildlife Refuge System managed in accordance with an approved CMP. The CMP guides management decisions and identifies refuge goals, long-range objectives, and strategies for achieving refuge purposes. Public input into this planning process is encouraged. The CMP will provide other agencies and the public with a clear understanding of the desired conditions for the Refuge and how the Service will implement management strategies.

Established in 1939, the Service managed Little Pend Oreille NWR until 1965, when the Washington Department of Fish and Wildlife assumed management through a cooperative agreement. In 1994, the Service resumed management. We need a CMP because no formal, long-term management direction exists for managing Little Pend Oreille NWR. Until the CMP is completed, Refuge management will be guided by official Refuge purposes; Executive Order 8104; Federal legislation regarding management of national wildlife refuges; and other legal, regulatory and policy guidance.

Upon implementation, the CMP would apply only to Federal lands within the boundaries of Little Pend Oreille NWR. Issues to be addressed in the plan include grazing, pests including noxious weeds, degraded aquatic and riparian habitats, overstocked forest habitats, Air Force Survival School training, and public uses. The plan will include the following topics:
