Centers for Disease Control and Prevention

[Announcement Number 711]

Cooperative Agreement Program To Strengthen the Public Health System by Effectively Translating the Essential Public Health Services Into Practice

Introduction

The Centers for Disease Control and Prevention (CDC) announces the availability of fiscal year (FY) 1997 funds for a cooperative agreement program with national public health associations and organizations to strengthen the public health system by effectively translating the essential public health services into practice. The CDC is committed to achieving the health promotion and disease prevention objectives of "Healthy People 2000," a national activity to reduce morbidity and mortality and improve the quality of life. This announcement is related to Objective 8.14 of Healthy People 2000: National Health Promotion and Disease Prevention Objectives: "Increase to at least 90 percent the proportion of people who are served by a local health department that is effectively carrying out the core functions of public health." (To order a copy of "Healthy People 2000," see the section WHERE TO OBTAIN ADDITIONAL INFORMATION.

The Institute of Medicine (IOM) defined the mission of public health as fulfilling society's interest in assuring conditions in which people can be healthy (The Future of Public Health, IOM, 1988). CDC proposes to support associations and organizations with a clearly defined membership or constituency and the capacity to serve communities across the nation. This ensures that all communities—urban, suburban, and rural—have the opportunity to access and receive the benefits of this comprehensive implementation strategy.

The CDC has committed substantial resources to promote and ultimately measure the implementation and impact of the Essential Public Health Services (see Attachment 1 which is included in the application kit). This program will also contribute to an overall strategy to assure the achievement of the Year 2000: National Health Promotion and Disease Prevention Objectives. To
