DEPARTMENT OF ENERGY

Conduct of Employees; Notice of Waiver Pursuant to Section 207(j)(5), Title 18, United States Code

Section 207(j)(5), title 18, United States Code, authorizes the Secretary of Energy to waive the post-employment restrictions of sections 207(a)(1), 207(a)(2), and 207(c), to permit a former employee with outstanding qualifications in a scientific, technological, or other technical discipline to make appearances before or communications to the Department in connection with a particular matter which requires such qualifications, where it has been determined that the national interest would be served by the participation of the former employee.

It has been established to my satisfaction that Everet H. Beckner, the former Principal Deputy Assistant Secretary, Defense Programs, has a

unique combination of outstanding qualifications in the field of nuclear physics as applied to weapons research and development, and associated environmental issues. I am further satisfied that, as the Vice President, Technology Operations and Environment, Safety & Health in Lockheed Martin Corporation's Energy & Environment Sector, it will serve the national interest to permit him to appear before and communicate with employees of the Department of Energy and other Government agencies with respect to the technological development, operation and management, and direction of the national laboratories and plants being managed by Lockheed Martin for the Department of Energy. I am also satisfied that these activities are in a scientific or technical field which requires the qualifications which Dr. Beckner possesses.

I have, therefore, waived the post-employment prohibitions of sections 207(a)(1), 207(a)(2), and 207(c), title 18, United States Code, in consultation with the Director of the Office of Government Ethics, to permit contact by Dr. Beckner with employees of the Department of Energy and other Government agencies with respect to Lockheed Martin Corporation's management and operation of plants and laboratories under contract with the Department of Energy.

Dated: November 21, 1996.  
Hazel R. O'Leary,  
Secretary of Energy.
