

15 U.S.C. § 4301 *et seq.* ("the Act"), the National Center for Manufacturing Sciences, Inc. ("NCMS") filed written notifications simultaneously with the Attorney General and the Federal Trade Commission disclosing changes in its membership status. The notifications were filed for the purpose of extending the Act's provisions limiting the recovery of antitrust plaintiffs to actual damages under specified circumstances. Specifically, the Rapid Response Manufacturing project, formed predominately of NCMS membership, is pursuing a joint research and development venture focusing on generic enabling technologies in the general area of computer integrated manufacturing.

Changes to this venture area as follows: Eastman Kodak Company, Rochester, NY has been added as a participant in the project. Cimflex Teknowledge Corporation has changed its name to Teknowledge Corporation and ICAD, Inc. has changed its name to Concentra Corporation. The MacNeal-Schwendler Corporation, Reston, VA, acquired Aries Technology, Inc. and subsequently became a participant in the project.

No other changes have been made in either the membership or planned activity of the group research project. Membership in this group research project remains open, and NCMS intends to file additional written notification disclosing all changes in membership.

On July 21, 1992, NCMS filed its original notification of the Rapid Response Manufacturing project pursuant to Section 6(a) of the Act. The Department of Justice published a notice in the Federal Register pursuant to Section 6(b) of the Act on November 19, 1992 (57 FR 54610). The last notification was filed on November 1, 1996. The Department of Justice published a notice in the Federal Register on December 4, 1996 (61 FR 64370).

Constance K. Robinson,
Director of Operations, Antitrust Division.

NATIONAL SKILL STANDARDS BOARD

Request for Comments on a Proposal To Establish a Voluntary National Skill Standards System

BACKGROUND: This notice requests public comment on the National Skill Standards Board's (NSSB) Proposal to Establish a Voluntary National Skill Standards System. The National Skill Standards Act of 1994 (Pub. L. 103-227, Title V, Section 504(a)) requires the Board to "identify broad clusters of major occupations that involve 1 or more than 1 industry in the United States and that share characteristics that are appropriate for the development of common skill standards. * * * Prior to identifying broad clusters of major occupations * * * the National Board shall engage in extensive public consultation, including solicitation of public comment on proposed clusters through publication in the Federal Register." For the purposes of the National Skill Standards Act, the "sectors of the economy" described in
