Utah: Release of Coal Exploration License Data, UTU–48608

ACTION: Notice of preliminary determination to allow public access to data from coal exploration license UTU–48608.

SUMMARY: BLM regulations at 43 CFR 2.22 and 3410.4(b) provide that data obtained under an exploration license will be kept confidential until the lands have been leased or BLM determines that public access to the data would not damage the competitive position of the licensee, whichever comes first. Coal Exploration License UTU–48068 was issued to Royal Land Company on August 4, 1981. Exploration under this license included drilling 15 holes in the vicinity of North Horn Mountain, Emery County, Utah. The lands covered by this license were offered for lease on May 29, 1982, and no bids were received. Based on the lack of interest in the unleased Federal coal covered by this license since the drilling was completed and the fact that no bids were received when the lands were offered for lease in 1982, BLM has determined that it is in the public interest to release the data obtained under Exploration License UTU–48608. BLM has further made a preliminary finding that the competitive interest of the licensee or any participants would not be harmed by the release of this data. The licensee, any participants, or any successor thereto, objecting to this determination, must respond by January 24, 1997, to document any assertion that public release of these data would damage any present competitive position they hold. Such documentation must include:

1. A statement describing the data to whose disclosure you object.

2. A copy of any participation agreement or other evidence verifying your participation in UTU–48606 and any interest you may have in the data.

3. A demonstration of the specific competitive harm that disclosure of the data would cause to your competitive position.

DATES: Objections, if any, to be filed by January 24, 1997.

Public Land Order No. 7229; Partial Revocation of the Secretarial Order Dated August 5, 1926; Washington

AGENCY: Bureau of Land Management, Interior.

ACTION: Public land order.

SUMMARY: This order revokes a Secretarial order insofar as it affects 3,250 acres of National Park lands withdrawn for the Bureau of Land Management's Powersite Classification No. 151. The lands are no longer needed for this purpose, and the revocation is needed to permit disposal of 29.83 acres of land through a National Park Service exchange. The remaining 3,220.17 acres are within the boundary of the Olympic National Park and have been and will remain closed to surface entry, mining, and mineral leasing.

EFFECTIVE DATE: December 19, 1996.

FOR FURTHER INFORMATION CONTACT:

Betty McCarthy, BLM Oregon/Washington State Office, P.O. Box 2965, Portland, Oregon 97208–2965, 503–952–6155.

By virtue of the authority vested in the Secretary of the Interior by Section 204 of the Federal Land Policy and Management Act of 1976, 43 U.S.C. 1714 (1988), it is ordered as follows:

1. The Secretarial Order dated August 5, 1926, which established Powersite Classification No. 151, is hereby revoked insofar as it affects the following described lands:
