or any other government entity. However, it is the Department’s practice with non-market economies (NMEs) to require information regarding de jure and de facto government control over a company’s export activities to establish its eligibility for an antidumping duty rate separate from the country-wide rate. Accordingly, we will issue a separate-rates questionnaire to Taiyuan and seek additional information from the government of the PRC, as appropriate.

If the responses from Taiyuan and the government of the PRC adequately demonstrate that Taiyuan is not subject to de jure and de facto government control with respect to its exports of pure magnesium, the review will proceed. If, on the other hand, the responses do not demonstrate Taiyuan’s eligibility for a separate rate, Taiyuan will be deemed to be affiliated with other companies that exported during the POI which did not establish their entitlement to a separate rate and we will terminate the new shipper review.

If this review proceeds normally, we will issue the preliminary results of this review not later than 180 days from the date on which this review is initiated and the final results within 90 days after issuance of the preliminary results, unless these time limits are extended in accordance with section 751(a)(2)(B)(iv) of the Act and section 353.22(h)(7)(ii) of the Interim Regulations.

**SUMMARY:** The Department of Commerce (the Department) is conducting administrative reviews of the countervailing duty order on Cold-Rolled Carbon Steel Flat Products (Cold-Rolled Steel) from Argentina for the periods 1992 and 1993.
