The Secretary of Transportation Has Now Determined That Eldorado International Airport, Bogota, Colombia, Maintains and Carries Out Effective Security Measures

Notice

By notice published on September 21, 1995, I announced that I had determined that Eldorado International Airport, Bogota, Colombia, did not maintain and administer effective security measures and that, pursuant to 49 U.S.C. 44907(d), I was providing public notification of that determination. I now find that Eldorado International Airport maintains and carries out effective security measures. My determination is based on a recent Federal Aviation Administration (FAA) assessment which reveals that security measures used at the airport now meet or exceed the Standards and Recommended Practices established by the International Civil Aviation Organization.

I have directed that a copy of this notice be published in the Federal Register and that the news media be notified of my determination. In addition, as a result of this determination, the FAA will direct that signs posted in U.S. airports relating to my September 15, 1995, determination be removed, and U.S. and foreign air carriers will no longer be required to provide notice of that determination to passengers purchasing tickets for transportation between the United States and Bogota, Colombia.

Dated: December 20, 1996.

Federico Peña,

Secretary of Transportation.
