[Release No. 34-38098; File No. SR-CHX-96-26]

Self-Regulatory Organizations; Chicago Stock Exchange, Inc.; Order Approving and Notice of Filing and Order Granting Accelerated Approval of Amendment No. 2 to Proposed Rule Change Relating to Enhanced SuperMAX and Timed Enhanced SuperMAX

December 30, 1996.

I. Information

On October 9, 1996, the Chicago Stock Exchange, Incorporated ("CHX" or "Exchange") filed with the Securities and Exchange Commission ("Commission"), pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act")¹ and Rule 19b-4 thereunder,² a proposal relating to its SuperMAX system, seeking permanent approval of the existing pilot program. The proposed rule change was published for comment in the Federal Register on November 20, 1996.³ The CHX filed an amendment ("Amendment No. 2") to the proposal on December 30, 1996.⁴ No comments were received on the proposed rule change. This order approves the Exchange's proposal as amended.

II. Description of the Proposal

On May 22, 1995, the Commission approved a proposed rule change of the CHX that allows specialists on the Exchange, through the Exchange's MAX system, to provide order execution guarantees that are more favorable than those required under CHX Rule 37(a),

¹ 15 U.S.C. § 78s(b)(1).

² 17 CFR 240.19b-4.

³ Securities Exchange Act Release No. 37947 (November 13, 1996), 61 FR 59124. In Amendment No. 1 to the proposed rule change, submitted on November 8, 1996, the Exchange replaced the text of the proposed rule change originally filed with rule text changed to reflect previously inadvertently omitted language. See Securities Exchange Act Release No. 37947 at note 2.

⁴ Letter from David T. Rusoff, Esq., Foley & Lardner, to Janet W. Russell-Hunter, Special Counsel, Office of Market Supervision, Division of Market Regulation, SEC, dated December 23, 1996. In Amendment No. 2, the CHX amended the proposed rule change to request an extension of the pilot through March 1, 1997, rather than a request for permanent approval of the program, and agreed to submit additional data regarding the pilot by January 31, 1997.

Article XX.⁵ That approval order contemplated that the CHX would file with the Commission specific modifications to the parameters of MAX that are required to implement various options available under this new rule.

On July 27, 1995, the Commission approved a proposed rule change of the CHX that implemented two options available under this new rule.⁶ These two new options, Enhanced SuperMAX and Timed Enhanced SuperMAX, were approved on a pilot basis until July 31, 1996. The Commission extended the pilot program until December 31, 1996 and requested that the CHX provide a report to the Commission, by August 31, 1996,⁷ describing its experience with the pilot program. On August 30, 1996, the CHX submitted a report.

The Exchange, based on its amended proposal, has requested a further extension for its Enhanced SuperMAX and Timed Enhanced SuperMAX pilot program⁸ through March 1, 1997. As stated above, the two options available in the pilot program are Enhanced SuperMAX and Timed Enhanced SuperMAX. Enhanced SuperMAX is merely a reactivation of the Exchange's Enhanced SuperMAX program, a program originally approved by the Commission on a pilot basis in 1991.⁹ The proposed Enhanced SuperMAX program differs from the original pilot program approved in 1991 in that it is available starting at 8:45 a.m. instead of 9:00 a.m. This program also differs from the Exchange's SuperMAX program in that under this program, certain orders are "stopped" at the consolidated best bid or offer and are executed with reference to the *next* primary market sale instead of the previous primary market sale. Timed Enhanced SuperMAX is a slight variation on the Enhanced SuperMAX program. It executes orders in the same manner as the Enhanced SuperMAX program except that if there are no executions in the primary market after the order has been stopped for a designated time period, the order is executed at the stopped price at the end of such period. Such period, known as a time out period, is pre-selected by a specialist on a stock-by-stock basis based on the size of the order, may be changed by a specialist no more frequently than once
