## Health Resources and Services Administration

### Agency Information Collection Activities: Proposed Collection: Comment Request

In compliance with the requirement of Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 for opportunity for public comment on proposed data collection projects, the

Health Resources and Services Administration (HRSA) will publish periodic summaries of proposed projects being developed for submission to OMB under the Paperwork Reduction Act of 1995. To request more information on the proposed project or to obtain a copy of the data collection plans and draft instruments, call the HRSA Reports Clearance Officer on (301) 443-1129.

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the

burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

**Proposed Projects**

1. Loan Information System Records for the DHHS and DHUD Hospital Mortgage Insurance, Guarantee, and Direct Loan Programs (OMB No. 0915-0174)—Extension, no change—The Division of Facilities Loans within the Health Resources and Services Administration monitors outstanding direct and guaranteed loans made under Section 621 of Title VI and Section 1601 of Title XVI of the Public Health Service Act, as well as loans insured under the Section 242 Hospital Mortgage Insurance Program of the Fair Housing Act. These programs were designed to

aid construction and modernization of health care facilities by increasing the access of facilities to capital through the assumption of the mortgage credit risk by the Federal Government.

Operating statistics and financial information are collected annually from hospitals with mortgages that are insured under these programs. The information is used to monitor the financial stability of the hospitals to protect the Federal investment in these facilities. The form used for the data collection is the Hospital Facility Data Abstract. No changes in the form are proposed. Because of the relatively small level of effort associated with submitting this report, there are no plans to develop a system for electronic transmission of the data. The estimate of annual burden hours is as follows:

Form	No. of respondents	Responses per respondent	Hours per response	Total hour burden
Hospital Facility Data Abstract .....	250 hospitals .....	1	1 hour .....	250 hours.

Send comments to Patricia Royston, HRSA Reports Clearance Officer, Room 14-36, Parklawn Building, 5600 Fishers Lane, Rockville, MD 20857. Written comments should be received within 60 days of this notice.

Dated: January 2, 1997.

 Director, Office of Policy and Information Coordination.

**National Institutes of Health**

**Submission for OMB Review; Comment Request; Pilot Research for Epidemiologic Studies of Migrant and Seasonal Farmworkers**

**SUMMARY:** Under the provisions of Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, the National Cancer Institute (NCI), the National

Institutes of Health (NIH) has submitted to the Office of Management and Budget (OMB) a request to review and approve the information collection listed below. This proposed information collection was previously published in the Federal Register on October 24, 1996, page 55159, and allowed 60 days for public comment. No public comments were received. The purpose of this notice is to allow an additional 30 days for public comment. The National Institutes of Health may not conduct or sponsor, and the respondent is not required to respond to, any information collection that has been extended, revised, or implemented after October 1, 1995, unless it displays a currently valid OMB control number.

**Proposed Collection**

*Title:* Pilot Research for Epidemiologic Studies of Migrant and Seasonal Farmworkers. *Type of Information Collection Request:* New.

*Need and Use of Information Collection:* A pilot study will be conducted to evaluate the ability to trace farmworkers over extended periods of time, to determine cancer diagnosis and treatment patterns among migrant and seasonal farmworkers, and to assess the reliability of farm work histories from farmworkers and from their spouses. The information will be used by the NCI to identify the most appropriate study design, case ascertainment procedures, and exposure assessment methods for a full-scale epidemiologic study of cancer among migrant and seasonal farmworkers. Determining the feasibility of using automated data collection techniques to obtain occupational histories from farmworkers will be part of this project. *Frequency of Response:* One-time study. *Affected public:* Individuals or households. *Type of Respondents:* Farmworkers and relatives. The annual reporting burden is as follows:

Type of respondents	Estimated No. of respondents	Estimated No. of responses per respondent	Average burden hours per response	Estimated total annual burden hours requested
Farmworkers .....	78	1.0	.333	26
Farmworkers with family history of cancer .....	67	1.0	.167	11
Farmworkers' relatives with cancer .....	33	1.0	.333	11
Farmworkers and spouses .....	53	1.2	1.000	64
Farmworker Opportunity Program Clients .....	13,333	1.0	.167	2,222
Total .....				2,334
