

Alternative C (Reduce Facilities and Services Inside Park) would reduce the level of development and visitor services inside the park and encourage the private sector to provide necessary new facilities such as overnight accommodations, campgrounds, and camper conveniences outside the park boundary. Major new park facilities such as an interpretive center and an environmental education center would be constructed outside the park as well. The park entrance area would function primarily as a staging area for trips farther into the park rather than as a destination in itself. This alternative allows for minimizing resource impacts and therefore maximizing resource protection inside the park.

Alternative E (Emphasize Visitor Services and Recreational Opportunities Within the Park) would significantly enhance the visitor experience by concentrating new development inside the park and providing a diversity of visitor facilities and services in the front country to meet a wide range of visitor needs and interests. The NPS would take the leading role in providing new visitor services. A new hotel would replace the existing temporary building, and a hostel or similar low-cost accommodations would be constructed at a separate location. A new interpretive center, a camper conveniences center, and an environmental education facility would be constructed just north of Riley Creek Campground. Additional campsites would be developed throughout the front country. New permanent rest areas would be constructed at Toklat and Savage, and trails would be upgraded and expanded at several locations. Road maintenance and repair along the park road would be upgraded to address documented structural problems as well as safety concerns and actual structural failures.

The responsible official for a Record of Decision on the proposed action is the NPS field director in Alaska.

Dated: December 24, 1996.
