#### Advisory Circular (AC) 23-15, Small Airplane Certification Compliance Program

**AGENCY:** Federal Aviation Administration (FAA), DOT.

**ACTION:** Notice of issuance of advisory circular.

**SUMMARY:** This notice announces the issuance of Advisory Circular (AC) 23-15, Small Airplane Certification Compliance Program. The principal certification activity of general aviation airplanes for the past two decades has been directed toward sophisticated products, i.e., pressurized single-engine airplanes, twin-engine turboprop airplanes, and commuters. These programs necessitated the development of advanced means of compliance. Over time, these more sophisticated procedures became the standard and threatened to obscure simpler means of compliance that are essential for economical development of simple low performance airplanes. A team of industry personnel, Designated Engineering Representatives, and Aircraft Certification Office personnel, who were either directly involved or had access to files related to certification of low performance airplanes during the 1950-1970 era, was assembled to document the most appropriate past practices. This AC is the result of the teams' effort.

**DATES:** Advisory Circular 23-15 was issued on January 2, 1997, by the Manager of the Small Airplane Directorate, Aircraft Certification Service, in Kansas City, Missouri.

**How to Obtain Copies:** A copy of AC 23-15 may be obtained by writing to the U.S. Department of Transportation, Subsequent Distribution Office, Ardmore East Business Center, 3341 Q 75th Avenue, Landover, MD 20785.

Issued in Kansas City, Missouri, on January 2, 1997.
