CERCLA 104 (c)(9) Capacity Assurance Planning: National Capacity Assessment Report

AGENCY: Environmental Protection Agency.

ACTION: Notice.

SUMMARY: Section 104(c)(9) of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) requires States to assure that adequate capacity exists to manage hazardous wastes generated in their State for 20 years before EPA can provide any Superfund Remedial Action Trust funds to the State. Under a program the Agency has implemented to help States fulfill this statutory mandate, States submit Capacity

Assurance Plans (CAPs) as the basis for their assurance. On May 1, 1994, States submitted CAPs to EPA pursuant to the May 1993 *Guidance for Capacity Assurance Planning*, OSWER Directive 9010.02. On November 3, 1994, the Agency made available for comment a draft of the *National Capacity Assessment Report*, in which the Agency made a proposed determination that there existed adequate national capacity, and which presented the Agency's analysis of State data. Based on the information contained in the CAPs, internal Agency studies, and comments received on the draft *Assessment Report*, the Agency is today finalizing the determination that there exists adequate national capacity in all CAP management categories. Therefore, as with the proposed determination, all States continue to be eligible to receive Superfund Trust funds.

The Agency will continue to collect and evaluate additional data to ensure that the requirements of CERCLA 104 (c)(9) are satisfied. At this time, the Agency does not anticipate the need to conduct another CAP for the next few years. The *National Capacity Assessment Report*, which describes the entire CAP process, is available for public review in the RCRA Docket. The information collection activities that occurred for the Capacity Assurance Planning process were approved by the Office of Management and Budget (OMB) under OMB Control Number 2050-0099.
