

concern" under the Small Business Act, unless the Commission has developed one or more definitions that are appropriate to its activities. Under the Small Business Act, a "small business concern" includes a small organization, which is defined as a non-profit enterprise that is not independently owned and operated and is not dominant in its field. NECA is a non-profit, quasi-governmental association that was initially created to administer the Commission's interstate access tariff and revenue distribution processes. Therefore, NECA is not a small organization within the meaning of the RFA. Furthermore, these proposals do not apply to other "small business concerns" since they propose to modify the composition of NECA's Board of Directors. For this reason, we tentatively conclude that these proposals would not have a significant economic impact on a substantial number of small entities.

14. We therefore certify, pursuant to Section 605(b) of the RFA, that these proposals would not have a significant economic impact on a substantial number of small entities. We seek comment on this tentative conclusion. The Commission shall publish this certification in the Federal Register, and shall provide a copy of this NPRM, including this certification, to the Chief Counsel for Advocacy of the Small Business Administration.
