Self-Regulatory Organizations; Notice of Filing of Proposed Rule Change by the Chicago Board Options Exchange, Inc., Relating to the Elimination of Position and Exercise Limits for FLEX Equity Options

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"),¹ and Rule 19b-4 thereunder,² notice is hereby given that on December 27, 1996, the Chicago Board Options Exchange, Inc. ("CBOE" or "Exchange") filed with the Securities and Exchange Commission ("Commission") the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the self-regulatory organization. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The CBOE, pursuant to Rule 19b-4 of the Act, proposes to revise Exchange Rules 4.11, 4.12, and 24A.7 to eliminate position and exercise limits for FLEX Equity Options.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the CBOE included statements concerning the purpose of and basis for the

proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The CBOE has prepared summaries, set forth in Sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The purpose of the proposed rule change is to eliminate position and exercise limits for FLEX Equity Options. Currently, Exchange Rule 24A.7(b) sets forth position limits for FLEX Equity Options³ equal to three times the positions limits for corresponding Non-FLEX Equity Options. Generally, position limits are set forth in Exchange Rule 4.11 and exercise limits are set forth in Exchange Rule 4.12.

The Exchange believes that the elimination of such limits is appropriate given the institutional nature of the market for FLEX Equity Options. According to the Exchange, many large investors find the use of exchange-traded options impractical because of the constraints imposed by position limits. The Exchange believes that the elimination of position limits will attract additional investors to exchange-traded options, thereby reducing transaction costs as well as improving price efficiency for all exchange-traded option market participants.

The Exchange also believes that FLEX Equity Options, after the elimination of position limits, may become an important part of large investors' investment strategies. In the absence of position limits, investors will be able to use options to implement specific viewpoints regarding the underlying common stock.

The Exchange also anticipates that issuers of stocks underlying FLEX Equity Options will use these options, primarily through the sale of puts, as part of their stock repurchase programs.⁴ In many cases, the size of announced buy-back programs significantly exceeds the number of shares that could be repurchased under the position limits currently imposed on FLEX Equity Options. While the Exchange does not expect that corporate

³ In general, FLEX Equity Options provide investors with the ability to customize basic option features including size, expiration date, and exercise style.

⁴ The Commission notes that issuers would, of course, need to comply with all applicable provisions of the federal securities laws in conducting their share repurchase programs.
