**[Docket Nos. 50-498 AND 50-499]**

**South Texas Project; Intent to Relocate  
Local Public Document Room**

Notice is hereby given that the Nuclear Regulatory Commission (NRC) will be relocating the local public document room (LPDR) for records pertaining to Houston Lighting and Power Company's South Texas Project. The LPDR is currently located at the J. M. Hodges Library, Wharton County Junior College, Wharton, Texas. Library staff informed the NRC that they are no longer able to maintain the document collection and request that it be moved. This notice invites public comment on possible LPDR locations in the vicinity of the South Texas Project, Bay City, Texas.

The South Texas Project LPDR collection includes all NRC publicly-available records dated January 1, 1981 forward, which are provided in microfiche form. All South Texas Project documents prior to January 1, 1981, are available in paper copy and take up approximately 27 linear feet of shelf space.

Among the factors the NRC will consider in selecting a new location for the LPDR are the following:

- (1) Whether the institution is an established document repository located near the nuclear facility with a history of impartially serving the public;
- (2) The physical facilities available, including shelf space, storage space, patron workspace, copying equipment and computer access;
- (3) The willingness and ability of the library staff to maintain the LPDR collection and assist the public in locating records;
- (4) The nature and extent of related research resources, such as government documents;
