Federal Register

Vol. 62, No. 12

Friday, January 17, 1997

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

## DEPARTMENT OF AGRICULTURE

### Animal and Plant Health Inspection Service

[Docket No. 96-099-1]

#### Availability of Environmental Assessment and Finding of No Significant Impact

**AGENCY:** Animal and Plant Health Inspection Service, USDA.

**ACTION:** Notice.

**SUMMARY:** We are advising the public that an environmental assessment and finding of no significant impact has been prepared by the Animal and Plant Health Inspection Service relative to the issuance of a permit to allow the field testing of genetically engineered organisms. The environmental assessment provides a basis for our conclusion that the field testing of the genetically engineered organisms will not present a risk of introducing or disseminating a plant pest and will not have a significant impact on the quality

of the human environment. Based on its finding of no significant impact, the Animal and Plant Health Inspection Service has determined that an environmental impact statement need not be prepared.

**ADDRESSES:** A copy of the environmental assessment and finding of no significant impact is available for public inspection at USDA, room 1141, South Building, 14th Street and Independence Avenue SW., Washington, DC, between 8 a.m. and 4:30 p.m., Monday through Friday, except holidays. Persons wishing to inspect the document are requested to call ahead on (202) 690-2817 to facilitate entry into the reading room.

**FOR FURTHER INFORMATION CONTACT:** Dr. Arnold Foudin, Deputy Director, Biotechnology Evaluation, BSS, PPQ, APHIS, Suite 5B05, 4700 River Road Unit 147, Riverdale, MD 20737-1237; (301) 734-7612. For a copy of the environmental assessment and finding of no significant impact, contact Mr. Clayton Givens at (301) 734-7612; e-mail: cgivens@aphis.usda.gov. Please refer to the permit number listed below when ordering the document.

**SUPPLEMENTARY INFORMATION:** The regulations in 7 CFR part 340 (referred to below as the regulations) regulate the introduction (importation, interstate movement, and release into the environment) of genetically engineered organisms and products that are plant pests or that there is reason to believe

are plant pests (regulated articles). A permit must be obtained or a notification acknowledged before a regulated article may be introduced into the United States. The regulations set forth the permit application requirements and the notification procedures for the importation, interstate movement, and release into the environment of a regulated article.

In the course of reviewing the permit application, the Animal and Plant Health Inspection Service (APHIS) assessed the impact on the environment that releasing the organisms under the conditions described in the permit application would have. APHIS has issued a permit for the field testing of the organisms listed below after concluding that the organisms will not present a risk of plant pest introduction or dissemination and will not have a significant impact on the quality of the human environment. The environmental assessment and finding of no significant impact, which is based on data submitted by the applicant and on a review of other relevant literature, provides the public with documentation of APHIS' review and analysis of the environmental impacts associated with conducting the field test.

An environmental assessment and finding of no significant impact has been prepared by APHIS relative to the issuance of a permit to allow the field testing of the following genetically engineered organisms:

PERMIT NUMBER	PERMITTEE	DATE ISSUED	ORGANISMS	FIELD TEST LOCATION
96-256-01	Sanford Scientific, Inc.	11-20-96	Geranium plants genetically engineered to express resistance to plant pathogenic bacteria and fungi.	California.

The environmental assessment and finding of no significant impact has been prepared in accordance with: (1) The National Environmental Policy Act of 1969, as amended (NEPA)(42 U.S.C. 4321 *et seq.*), (2) Regulations of the Council on Environmental Quality for implementing the procedural provisions of NEPA (40 CFR parts 1500-1508), (3) USDA regulations implementing NEPA (7 CFR part 1b), and (4) APHIS' NEPA Implementing Procedures (7 CFR part 372).

Done in Washington, DC, this 13th day of January 1997.

Terry L. Medley,

*Administrator, Animal and Plant Health Inspection Service.*

### Forest Service

#### Clearwater National Forest, Idaho County, Idaho Spruce Moose and Moose Lake Right-of-way

**AGENCY:** Forest Service, USDA.

**ACTION:** Notice of intent to prepare an environmental impact statement.

**SUMMARY:** On October 30, 1995, the Powell Ranger District, Clearwater National Forest, began public scoping for the Spruce Moose project, a proposed salvage timber sale and private land access request. During 1996, the environmental effects of the proposed action were analyzed. During the course of this analysis, it was determined that potential effects on steelhead trout (proposed for listing under the Endangered Species Act), Bull
