Draft Rangewide Strategy; CA and AZ, Flat-tailed Horned Lizard

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of availability of Draft Flat-tailed Horned Lizard Rangewide Management Strategy.

SUMMARY: An interagency working group has prepared a Draft Flat-tailed Horned Lizard Rangewide Strategy (Draft Rangewide Strategy) to provide guidance for the conservation and management of sufficient habitat to maintain viable populations of flat-tailed horned lizards (*Phrynosoma mcallii*). The species is found only in southwestern Arizona, southeastern California, and adjacent portions of Sonora and Baja California Norte, Mexico. The species was proposed for listing as a threatened species by the U.S. Fish and Wildlife Service (USFWS) on November 29, 1993.

The Draft Rangewide Strategy calls for the establishment of five flat-tailed horned lizard management areas—four in California and one in Arizona. Surface disturbing activities would be limited in these areas. Activities would not be restricted outside of these management areas, but mitigation and compensation measures would be applied. In addition, one research area is proposed.

The Draft Rangewide Strategy was prepared by representatives from Federal, state, and local governments. It is intended to be used as the basis for a conservation agreement among the agencies. Signatory agencies will incorporate measures in the final Rangewide Strategy into their management plans. If the final Rangewide Strategy is adequate in removing threats, listing of the species may not be required.

The Draft Rangewide Strategy is available for review at or may be obtained by writing the following offices:
