

Numbering System (DUNS) number for the current Contractor Establishment Code (CEC).

Concerns have been raised that the same numbering system should be used for reporting to the Federal Procurement Data System (FPDS) and identifying vendors in the FACNET vendor registration database. Beginning with FY 1996 first quarter submissions to the Federal Procurement Data Center (FPDC), agencies may report the DUNS number.

The FPDS provides a comprehensive mechanism for assembling, organizing, and presenting contract placement data for the Federal Government. Federal agencies report data to the FPDC which collects, processes, and disseminates official statistical data on Federal contracting. The DUNS number is replacing the current CEC as the primary contractor identification number used to identify contractors in the FPDS. Changes to the FPDS reporting requirements are currently in process to conform to the requirements of Section 10004 of the Federal Acquisition Streamlining Act.
