### Department of the Army

#### **Final Environmental Impact Statement/ Environmental Impact Report (FEIS/ FEIR) for Proposed Combined-Forces Training Activities, New Equipment Utilization, and Range Modernization Program at Camp Roberts Army National Guard Training Site, California**

**AGENCY:** Department of the Army, DoD.

**ACTION:** Notice of availability.

**SUMMARY:** The purpose of this project is to maximize training opportunities for military units that use Camp Roberts. Military units need to be able to maintain a high level of training and state of readiness to support national defense and state missions in times of natural disaster, civil unrest, and other emergencies. Adequate training opportunities, with up-to-date equipment, must be available to allow them to train for their assigned missions.

This FEIS/EIR analyzes the proposed action, two alternatives, and the no-action alternative. The proposed action consists of three components: Combined-forces training with two brigades of personnel and associated equipment, new equipment utilization, and a range modernization program.

The combined-forces training component would consist of increasing the intensity of training from a typical maximum of approximately 5,300 soldiers to approximately 10,600 soldiers during an annual training period at Camp Roberts. Four new types of equipment would be introduced at Camp Roberts as part of the proposed action: The M1 Abrams series of tanks would replace the M60 series tanks; Bradley Fighting Vehicles would replace the M113 series armored personnel carriers; the Multiple-Launch Rocket System would replace all but two of the M110 8-inch howitzers; and the AH-64 series Apache helicopters would replace the Cobra helicopters. The range modernization program component would be composed of both

upgrading existing ranges and constructing new ranges.

In addition to the proposed action, the FEIS/EIR evaluates three other alternatives: No-Action, New Equipment Utilization and Range Modernization Program, and the Peak Training Use of Camp Roberts/Fort Hunter Liggett.

A 45-day public review and comment period was provided for the Draft Environmental Impact Statement/ Environmental Impact Report (DEIS/ EIR). Two public hearings were held in San Luis Obispo and Paso Robles, California, on the DEIS/EIR after the Notice of Availability was published. After all the comments were compiled and reviewed, responses were prepared to all relevant environmental issues that were raised. These responses to comments and/or any new pertinent information were incorporated into the DEIS/EIR to constitute the FEIS/EIR. After a 30-day waiting period on the FEIS/EIR, a Record of Decision will be published.

**ADDRESSES:** Copies of the FEIS/EIR will be mailed to individuals who participated in the public scoping process. Copies will also be sent to Federal, state, regional, and local agencies; interested organizations and agencies; and public libraries. Individuals not currently on the mailing list may obtain a copy by request.

**FOR FURTHER INFORMATION CONTACT:** Lieutenant Colonel William Parsonage, EIS/EIR Project Officer, Camp Roberts Army National Guard Training Site, Camp Roberts, CA, 93451-5000; telephone (805) 238-8207.
