Duke Power Company; Notice of Availability of Environmental Assessment

January 16, 1997.

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission's) Regulations, 18 CFR Part 380 (Order No. 486, 52 FR 47897), the Office of Hydropower Licensing (OHL) has reviewed Duke Power Company's application requesting Commission authorization to: (1) Grant an easement to the City of Camden, South Carolina (Camden) to construct raw water withdrawal facilities on 1.47 acres of land within the boundary of the Catawba-Wateree Project, and (2) allow Camden to withdraw up to 12 million gallons per day (mgd) of water from Lake Wateree. The proposed raw water intake facility would be constructed near the Eagles Nest Subdivision on the southeast shore of Lake Wateree in Kershaw County, South Carolina.

The staff of OHL's Division of Licensing and Compliance has prepared an Environmental Assessment (EA) for the proposed action. In the EA, the Commission's staff has analyzed the environmental impacts of the proposed project and has concluded that approval of the licensee's proposal would not constitute a major federal action significantly affecting the quality of the human environment.

Copies of the EA are available for review in the Public Reference Branch, Room 2A of the Commission's offices at 888 First Street, N.E., Washington, D.C. 20426 or by calling the Commission's

Public Reference Room at (202) 208-1371.
