

Government's requirements for the coat to the Procurement List. This portion is less than a tenth of the value of the contractor's estimate of its sales of this coat, and an even smaller percentage of the contractor's total sales. Consequently, the Committee does not believe that this addition to the Procurement List will have a severe adverse impact on the contractor. With respect to FPI's re-entry into the market, the Committee noted that the layoffs and lower levels of plant operation cited by the current contractor appeared to have occurred prior to FPI's involvement. At most, FPI's participation will prevent the current contractor from regaining some of the coat sales it had prior to the advent of reduced requirements several years ago. The Committee also noted that, within the past year, the current contractor has taken steps to diversify its product line, which enhances its long-term economic prospects.

After consideration of the material presented to it concerning capability of qualified nonprofit agencies to provide the commodities and impact of the addition on the current or most recent contractors, the Committee has determined that the commodities listed below are suitable for procurement by the Federal Government under 41 U.S.C. 46-48c and 41 CFR 51-2.4.

I certify that the following action will not have a significant impact on a substantial number of small entities. The major factors considered for this certification were:

1. The action will not result in any additional reporting, recordkeeping or other compliance requirements for small entities other than the small organizations that will furnish the commodities to the Government.
2. The action does not appear to have a severe economic impact on current contractors for the commodities.
3. The action will result in authorizing small entities to furnish the commodities to the Government.
4. There are no known regulatory alternatives which would accomplish the objectives of the Javits-Wagner-O'Day Act (41 U.S.C. 46-48c) in connection with the commodities proposed for addition to the Procurement List.

Accordingly, the following commodities are hereby added to the Procurement List:

Coat, Combat, Woodland Camouflage
