

Specifically EPA is seeking information that would assist in determining whether F&W uses are currently being attained, or have been attained since or before 1975, or whether natural conditions or features or human caused conditions prevent the attainment of F&W uses and cannot be remedied or would cause more environmental damage to correct than to leave in place. Below is a general discussion of the types of data/information requested by the Agency:

Ambient Monitoring Information: (1) Any instream data for any of the above stream segments reflecting either natural conditions (e.g., instream flow data or other data relating to stream hydrology) or irretrievable human-caused conditions which prevent the F&W uses or supporting water quality criteria from being attained, (2) Any available instream biological data, (3) Any chemical and biological monitoring data that verify improvements to water quality as a result of treatment plant/facility upgrades and/or expansions and (4) Any instream data reflecting nonpoint sources of pollution or best management practices that have been implemented for nonpoint source control.

Current and Historical Effluent Data: (1) Any data and information relating to mass loadings from point source discharges of pollutants such as BOD, NH₃-N, Chlorine, metals (e.g., As, Cd, Cr, Cu, Pb, Hg, Ni, Ag, Zn), toxics (e.g., volatile organic chemicals such as benzene or toluene, acid extractables such as pentachlorophenol, base neutrals such as anthracene, fluorene or pyrene, and pesticides such as aldrin, lindane, DDT, dieldrin, endrin and toxaphene), (2) Data and information related to facility or treatment plant effluent quality and (3) Any information related to releases of pollutants from other sources such as landfills, transportation facilities, construction sites, agriculture/silviculture, incinerators, and contaminated sediments.

Models: (1) Any data or information on analytical models which can be used to evaluate or predict stream quality, flow and/or morphology, (2) Any physical, biological or chemical characteristics relating to beneficial uses and (3) The results of any such models which can be used to evaluate beneficial uses. **Economic Data:** Any information relating to costs and benefits associated with facility or treatment plant expansions or upgrades. This information includes: (1) Qualitative descriptions or quantitative estimates of any costs and benefits associated with facilities or treatment plants meeting F&W limits, (2) Any information on

costs to households in the community with facility or treatment plant expansions or upgrades, whether through an increase in user fees, an increase in taxes, or a combination of both, (3) Descriptions of the geographical area affected, (4) Any changes in median household income, employment, and overall net debt as a percent of full market value of taxable property and (5) Any effects of changes in tax revenues if the private-sector entity were to go out of business, changes in income to the community if workers lose their jobs, and effects on other businesses both direct and indirect.

Dated: January 21, 1997.

Robert F. McGhee,

Director, Water Management Division.

BILLING CODE 6560-50-P

FEDERAL COMMUNICATIONS COMMISSION

[Report No. 2174]

Petitions for Reconsideration and Clarification of Action in Rulemaking Proceedings

January 24, 1997.

Petitions for reconsideration and clarification have been filed in the Commission's rulemaking proceedings listed in this Public Notice and published pursuant to 47 CFR 1.429(e). The full text of these documents are available for viewing and copying in Room 239, 1919 M Street, N.W., Washington, D.C. or may be purchased from the Commission's copy contractor, ITS, Inc. (202) 857-3800. Oppositions to these petitions must be filed February 13, 1997. See Section 1.4(b)(1) of the Commission's rules (47 CFR 1.4(b)(1)). Replies to an opposition must be filed within 10 days after the time for filing oppositions has expired.

Subject: Amendment of Section 73.202(b), Table of Allotments, FM Broadcast Stations. (Rose Hill, Trenton, Aurora, and Ocracoke, North Carolina) (MM Docket No. 95-88, RM-8641, RM-8688, RM-8689)

Number of Petition Filed: 1.

Subject: Interconnection and Resale Obligations Pertaining to Commercial Mobile Radio Services. (CC Docket No. 94-54)

Number of Petition Filed: 2.

Federal Communications Commission.

William F. Caton,

Acting Secretary.

BILLING CODE 6712-01-M

FEDERAL EMERGENCY MANAGEMENT AGENCY

Agency Information Collection Activities: Submission for OMB Review; Comment Request

ACTION: Notice and request for comments.

SUMMARY: The Federal Emergency Management Agency has submitted the following proposed information collection to the Office of Management and Budget for review and clearance in accordance with the requirements of the Paperwork Reduction Act of 1995 (44 U.S.C. 3507).

Title: Approval and Coordination of Requirements to Use the NETC for Extracurricular Training Activities.

Type of Information Collection: Extension of a currently approved collection.

OMB Number: 3067-0219.

Abstract: The National Emergency Training Center (NETC) is a FEMA facility, located in Emmitsburg, Maryland, that houses the Emergency Management Institute and the National Fire Academy. It provides training and education programs for Federal, State, and local personnel in hazard mitigation, emergency response and preparedness, fire prevention and control, disaster response, and long-term disaster recovery. Special groups sponsored by the EMI, NFA, or other FEMA organizations may use NETC facilities to conduct activities closely related to, or in direct support of their activities. Such groups include other Federal departments and agencies, groups chartered by Congress such as the American Red Cross, State and local governments, volunteer groups and national and international associations representing State and local governments. The collection of information will be used to obtain information from special groups that request the use of NETC facilities for extracurricular training activities.

Affected Public: Individuals and households, business or other for-profit, not-for-profit institutions, Federal Government, and State, Local, or Tribal Government.

FEMA Forms:

(1) FEMA Form 75-10, Request for Housing Accommodations, is used by an organization's or group's contact person to provide information on participants who will be staying on campus. NETC staff use the information to assign dormitory rooms. Estimated burden for this form is 110 hours—1,100 responses at 6 minutes per response.

(2) FEMA Form 75-11, Request for Use of NETC Facilities, is used by
