Availability of Reregistration Eligibility Decision Documents for Comment; Certain Chemicals

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of availability of Reregistration Eligibility Decision documents; opening of public comment period.

SUMMARY: This notice announces the availability of the Reregistration Eligibility Decision (RED) documents for the active ingredients Alkyl Imidazolines, Amitraz, Amitrole, Ancymidol, Bronopol, Chlorhexidine diacetate, Chlorpropham, Coumaphos, Cryolite, Desmedipham, Dibromodicyanobutane, Dimethoxane, Hydroxyethyl octyl sulfide, Hydroxypropylmethanethiosulfonate, Methyloxazolidine, Mitin-FF, Norflurazon, O-benzyl-p-chlorophenol and salts, Prometryn, Propamocarb hydrochloride, Starlicide, Tetrachlorvinphos, and Trifluralin. This notice starts a 60-day public comment period. The REDs for the chemicals listed above are the Agency's formal regulatory assessments of the health and environmental data base of the subject chemicals and present the Agency's determination regarding which pesticidal uses are eligible for reregistration.

Please note that these REDs were finalized and signed prior to August 3,

1996. On that date, the Food Quality Protection Act of 1996 ("FQPA") became effective, amending portions of both the pesticide law (FIFRA) and the food and drug law (FFDCA). These REDs don't address any issues raised by FQPA, and any tolerance-related statements in the RED did not take into account any changes in tolerance assessment procedures required under FQPA. To the extent that these REDs indicate that a change in any tolerance is necessary, that determination will be reassessed by the Agency under the standards set forth in FQPA before a proposed tolerance is issued. To the extent that the RED does not indicate that a change in the tolerance is necessary, that tolerance, too, will be reassessed in the future pursuant to the requirements of FQPA.

DATES: Written comments on these decisions must be submitted by April 1, 1997.

SUPPLEMENTARY INFORMATION: The Agency has issued Reregistration Eligibility Decision (RED) documents for the pesticidal active ingredients listed above. Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended in 1988, EPA is conducting an accelerated reregistration program to reevaluate existing pesticides to make sure they meet current scientific and regulatory standards. The data base to support the reregistration of each of the chemicals listed above is substantially complete.

All registrants of products containing one or more of the above listed active ingredients have been sent the appropriate RED documents and must respond to labeling requirements and product specific data requirements (if applicable) within 8 months of receipt. Products containing other active ingredients will not be reregistered until those other active ingredients are determined to be eligible for reregistration.

The reregistration program is being conducted under Congressionally mandated time frames, and EPA recognizes both the need to make timely reregistration decisions and to involve the public. Therefore, EPA is issuing these REDs as final documents with a 60-day comment period. Although the 60-day public comment period does not affect the registrant's response due date, it is intended to provide an opportunity for public input and a mechanism for initiating any necessary amendments to the RED. All comments will be carefully considered by the Agency. If any comment significantly affects a RED, EPA will amend the RED by publishing the amendment in the Federal Register.

A record has been established for this notice under docket number "OPP-34099" (including comments and data submitted electronically as described below). A public version of this record, including printed, paper versions of electronic comments, which does not include any information claimed as CBI, is available for inspection from 8:30 a.m. to 4 p.m., Monday through Friday, excluding legal holidays. The public record is located in Rm. 1132 of the

Public Response and Program Resources Branch, Field Operations Division (7506C), Office of Pesticide Programs, Environmental Protection Agency, Crystal Mall #2, 1921 Jefferson Davis Highway, Arlington, VA.

Electronic copies of the REDs and RED fact sheets can be downloaded from the Pesticide Special Review and Reregistration Information System at (703) 308-7224, and also can be reached on the Internet via fedworld.gov and EPA's gopher server, gopher.epa.gov.

Electronic comments can be sent directly to EPA at: opp-docket@epamail.epa.gov

Electronic comments must be submitted as an ASCII file avoiding the use of special characters and any form of encryption.

The official record of this notice, as well as the public version, as described above will be kept in paper form. Accordingly, EPA will transfer all comments received electronically into printed, paper form as they are received and will place the paper copies in the official record which will also include all comments submitted directly in writing. The official record is the paper record maintained at the address in "ADDRESSES" at the beginning of this document.
