## NUCLEAR REGULATORY COMMISSION

### Agency Information Collection Activities: Submission for OMB Review; Comment Request

**AGENCY:** U.S. Nuclear Regulatory Commission (NRC).

**ACTION:** Notice of the OMB review of information collection and solicitation of public comment.

**SUMMARY:** The NRC has recently submitted to OMB for review the following proposal for the collection of information under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35). The NRC hereby informs potential respondents that an agency may not conduct or sponsor, and that a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

1. *Type of submission, new, revision, or extension:* Revision.
2. *The title of the information collection:* 10 CFR Part 55, "Operators' Licenses."
3. *The form number if applicable:* Not applicable.
4. *How often the collection is required:* As necessary in order for NRC to meet its responsibilities to determine the eligibility of applicants for operators' licenses and perform a review of applications and reports for simulation facilities submitted to the NRC.
5. *Who will be required or asked to report:* Holders of and applicants for facility (i.e., nuclear power, research, and test reactor) operating licenses and individual operators' licenses.
6. *An estimate of the number of responses:* 135.
7. *The estimated number of annual respondents:* 135.

8. *An estimate of the total number of hours needed annually to complete the requirement or request:* 3,556 (approximately 964 hours of reporting burden and approximately 2,592 hours of recordkeeping burden).

9. *An indication of whether Section 3507(d), Pub. L. 104-13 applies:* Not applicable.

10. *Abstract:* 10 CFR Part 55 of the NRC's regulations, "Operators' Licenses," specifies information and data to be provided by applicants and facility licensees so that the NRC may make determinations concerning the licensing of operators for nuclear power plants necessary to promote the health and safety of the public. The reporting and recordkeeping requirements contained in 10 CFR Part 55 are mandatory for the licensees and applicants affected.

A copy of the submittal may be viewed free of charge at the NRC Public Document Room, 2120 L Street, NW (Lower Level), Washington, DC. Members of the public who are in the Washington, DC, area can access the submittal via modem on the Public Document Room Bulletin Board (NRC's Advanced Copy Document Library) NRC subsystem at FedWorld, 703-321-3339. Members of the public who are located outside of the Washington, DC, area can dial FedWorld, 1-800-303-9672, or use the FedWorld Internet address: fedworld.gov (Telnet). The document will be available on the bulletin board for 30 days after the signature date of this notice. If assistance is needed in accessing the document, please contact the FedWorld help desk at 703-487-4608. Additional assistance in locating the document is available from the NRC Public Document Room, nationally at 1-800-397-4209, or within the Washington, DC, area at 202-634-3273.

Comments and questions should be directed to the OMB reviewer by March 5, 1997: Edward Michlovich, Office of Information and Regulatory Affairs (3150-0018), NEOB-10202, Office of Management and Budget, Washington, DC 20503.

Comments can also be submitted by telephone at (202) 395-3084.

The NRC Clearance Officer is Brenda Jo. Shelton, (301) 415-7233.

Dated at Rockville, Maryland, this 28th day of January 1997.

For the Nuclear Regulatory Commission.  
Gerald F. Cranford,  
Designated Senior Official for Information Resources Management.

### James C. Nelson, Order Prohibiting Involvement In NRC-Licensed Activities (Effective Immediately)

I

Mr. James C. Nelson owns and operates Nelson Excavating, Inc. in Thomas, West Virginia. Nelson Excavating, Inc. (Licensee) holds By-product License No. 47-24923-02, issued by the Nuclear Regulatory Commission (NRC or Commission) pursuant to 10 CFR Part 30. The License was initially issued on June 24, 1987, and last renewed on September 17, 1992. The License authorizes the Licensee to use a Troxler Electronic Model 3400 series portable moisture density gauge for soil compaction measurements in accordance with the conditions specified therein. The License was extended for a period of five years on March 1, 1996, and will expire on September 30, 2002. On August 15, 1996, the Licensee discontinued licensed activities and transferred its gauge containing nominally 11 millicuries (mCi) of Cesium-137 and 44 mCi of Americium-241 to an authorized recipient. On August 15, 1996, the Licensee formally requested termination of its NRC License. The License is being terminated separately in accordance with this request.

II

On October 24, 1995, the NRC's Office of the Controller issued an Order Suspending License (Effective Immediately) to Nelson Excavating, Inc. suspending its License for the non-payment of fees in the amount of \$2,873.48, including late penalties of \$753.48. The Order required, among other things, that the Licensee immediately restrict its activities involving licensed material to safe, secure storage or appropriate disposal until notified by the NRC in writing that the License had been terminated. The Order became final on November 24, 1995, following the Licensee's failure to respond to the NRC or pay the fees within the 30 days specified in the Order.

During the period March 19 through April 1, 1996, NRC Region II conducted a special safety inspection of licensed activities to determine the status of the gauge and compliance with the October 24, 1995 Order. The inspection determined the following: (1) The Licensee used the gauge containing by-product material on November 6, 1995, and January 4, 1996, contrary to the requirements of the October 24, 1995,
