Warren Grant Magnuson Clinical Center; Amended Notice of Meeting

Notice is hereby given of a change in the meeting of the Board of Governors of the Warren Grant Magnuson Clinical Center and its Executive Committee, February 9-10, 1997, which was published in the Federal Register on January 21, 1997 (62 FR 3051).

The Executive Committee will meet on February 9 at the Bethesda Hyatt, One Metro Center, Bethesda, Maryland, but will begin at 7:30 p.m. instead of the previously stated 6:00 p.m. The Board meeting remains at the same time and place, 1:00 p.m., Medical Board Room, Building 10, National Institutes of Health, Bethesda, Maryland.

As previously advertised, these meetings will be open to the public. However, in accordance with the provisions set forth in sec. 552b(c)9(B) of Title 5, U.S.C. and sec. 10(d) of Pub. L. 92-463, both meetings may close to the public for discussion of patient-related issues, the premature disclosure of which would frustrate implementation of proposed agency actions.

Dated: January 31, 1997.
 Paula N. Hayes,
Acting Committee Management Officer, NIH.

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

Notice of Receipt of Applications for Permit

The following applicants have applied for a permit to conduct certain activities with endangered species. This notice is provided pursuant to Section 10(c) of the Endangered Species Act of 1973, as amended (16 U.S.C. 1531, *et seq.*):

PRT-824555

Applicant: University of California, San Diego, CA.

The applicant requests a permit to import hair samples taken from captive-born Goeldi's marmoset (*Callimico goeldii*) from Switzerland for DNA analysis to enhance the propagation and survival of the species.

PRT-785649

Applicant: Wildlife Conservation Society, Bronx, NY.

The applicant requests a renewal permit to import blood samples from chimpanzee (*Pan troglodytes*) and Pygmy chimpanzee (*Pan paniscus*), gorilla (*Gorilla gorilla*), Northern white rhinoceros (*Ceratotherium simum cottoni*), and African elephant (*Loxodonta africana*) for the purpose of scientific research and enhancement of survival of the species.

PRT-824669

Applicant: Richard Curt Rowland, Fairfield, CA.

The applicant requests a permit to import the sport-hunted trophy of one male bontebok (*Damaliscus pygargus dorcas*) culled from a captive herd maintained under the management program of the Republic of South Africa, for the purpose of enhancement of the survival of the species.

PRT-822461

Applicant: Virgil W. Binkley, Townsend, MT.

The applicant requests a permit to import a sport-hunted cheetah (*Acinonyx jubatus*) from Namibia for the purpose of enhancement of the survival of the species.

PRT-824722

Applicant: Wildlife Conservation Society, Bronx, NY.

The applicant requests a permit to import blood samples taken from wild American crocodile (*Crocodylus acutus*) and Morelet's crocodile (*Crocodylus moreletii*) for the purpose of scientific research and enhancement of survival of the species.

Written data or comments should be submitted to the Director, U.S. Fish and Wildlife Service, Office of Management Authority, 4401 North Fairfax Drive, Room 430, Arlington, Virginia 22203 and must be received by the Director within 30 days of the date of this publication.

Documents and other information submitted with these applications are available for review, subject to the requirements of the Privacy Act and Freedom of Information Act, by any party who submits a written request for a copy of such documents to the following office within 30 days of the date of publication of this notice: U.S. Fish and Wildlife Service, Office of Management Authority, 4401 North Fairfax Drive, Room 430, Arlington, Virginia 22203. Phone: (703/358-2104); FAX: (703/358-2281).

Dated: January 31, 1997.
 Mary Ellen Amtower,
Acting Chief, Branch of Permits, Office of Management Authority.

 BILLING CODE 4310-55-P

Geological Survey

Application Notice Describing the Areas of Interest and Establishing the Closing Date for Receipt of Applications Under the National Earthquake Hazards Reduction Program (NEHRP) for Fiscal Year (FY) 1998

AGENCY: Department of the Interior, U.S. Geological Survey.

ACTION: Notice.

SUMMARY: Applications are invited for research projects under the NEHRP.

The purpose of this program is to support research in earthquake hazards prediction; to provide earth-science data and information essential to determine seismic hazards present in the United States; and information essential to mitigate earthquake damage.

Applications may be submitted by educational institutions, private firms, private foundations, individuals, and agencies of state and local governments.

The NEHRP supports research related to the following general areas of interest:

I. Evaluating National and Regional Hazard and Risk. National and regional hazard and risk maps are critical to effective risk reduction strategies.

II. Evaluating Urban Hazard and Risk. The strong ground shaking and resulting catastrophic losses in the 1994 Northridge earthquake reinforced the need for the U.S. Geological Survey to concentrate its efforts where the risks are highest, that is, in the nation's urban areas.

III. Understanding Earthquake Processes. The effectiveness of risk-mitigation strategies and disaster response are limited by our meager understanding of the tectonic processes that cause earthquakes and generate the strong shaking and ground failure that devastates the built environment.

IV. Providing Real-time Hazard Assessment. Effective earthquake hazard evaluation and response to damaging events depend on timely, accurate information. Short, intermediate, and long-term earthquake forecasts in regions of high earthquake potential can all lead to mitigation activities that reduce the losses in subsequent earthquakes.

V. Providing Geologic Hazards Information Services. Computer
