NUCLEAR REGULATORY COMMISSION

[Docket No. 72-9 (50-267)]

Notice of Issuance of Amendment to Materials License SNM-2504; Public Service Company of Colorado, Fort St. Vrain Independent Spent Fuel Storage Installation

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment 4 to Materials License No. SNM-2504 held by the Public Service Company of Colorado (PSCo) for the receipt, possession, storage, and transfer of spent fuel at the Fort St. Vrain (FSV) independent spent fuel storage installation (ISFSI), located in Weld County, Colorado. The amendment is effective as of the date of issuance.

By application dated January 9, 1997, and supplement dated January 17, 1997, PSCo requested an amendment to its ISFSI license to change the title of the corporate-level individual directly responsible for oversight of the ISFSI. PSCo requested that the position of "Corporate Vice President" responsible for the ISFSI, identified in Technical Specification 4.2, be modified to "Corporate Executive" responsible for the ISFSI.

This amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment.

In accordance with 10 CFR 72.46(b)(2), a determination has been made that the amendment does not present a genuine issue as to whether public health and safety will be significantly affected. Therefore, the publication of a notice of proposed action and an opportunity for hearing or a notice of hearing is not warranted. Notice is hereby given of the right of interested persons to request a hearing on whether the action should be rescinded or modified.

The Commission has determined that the issuance of the amendment will not result in any significant environmental impact and that, pursuant to 10 CFR 51.22(c)(10)(ii), an environmental assessment need not be prepared in connection with issuance of the amendment.

Documents related to this action are available for public inspection at the Commission's Public Document Room located at the Gelman Building, 2120 L
