**SUPPLEMENTARY INFORMATION:**

**Background**

On December 9, 1996, BTS published a notice in the Federal Register proposing to establish a negotiated rulemaking advisory committee (the Committee) under the Federal Advisory Committee Act and the Negotiated Rulemaking Act. 61 FR 64849. The Committee would consider the relevant issues and attempt to reach a consensus on regulations governing the collection of financial and operating data from motor carriers of property. This effort also is in response to the President's Regulatory Reinvention Initiative, which specifically directed agencies to increase use of regulatory negotiation in rulemaking proceedings. The Committee would be composed of people who represent the interests that would be substantially affected by the rule.

On January 23, 1997, BTS published a notice in the Federal Register announcing it would hold a public meeting on the proposal on February 10, 1997. 62 FR 3492. The purpose of the meeting was to better determine the utility of negotiating a rule on this matter. While negotiated rulemaking

would attempt to resolve issues surrounding the motor carrier data collection program, several initial matters deserve attention. First, do we need to amend the existing rule and, if so, is negotiated rulemaking the best process for updating the motor carrier data collection program? Second, if so, what are the core issues in dispute and differing legitimate needs of the interested parties? Third, which organizations or interests should be represented on the Committee? Because of scheduling conflicts, the original date of the public meeting is being changed. This notice reschedules that meeting and provides an extension for submitting comments on the proposal published December 19, 1996.

No Other Changes to the January 23, 1996, Notice

No other changes are made to the January 23, 1996, notice by this supplementary notice.

Issued in Washington, DC, on February 4, 1997.

Robert A. Knisely,

*Deputy Director, Bureau of Transportation Statistics.*
