SUPPLEMENTARY INFORMATION: MTMC is the agency established within the DOD for the procurement of land transportation services from commercial carriers on behalf of DOD shippers. Historically brokers could not participate in DOD traffic because the broker was an intermediary between the shipper and the carrier, essentially duplicating the mission performed by MTMC of matching the DOD shipper's requirements with a carrier which can accommodate to move. Brokers were not carriers, did not perform transportation, did not assume responsibility for the transportation, and did not publish tariffs or offer Government rate tenders or enter into Government bills of lading (GBLs) or other transportation contracts. Today, in the deregulated transportation environment, brokers can and do conduct carrier operations, perform transportation, and assume responsibility for the transportation, and no reason appears why they may not voluntarily enter into the DOD standard tender/GBL and other transportation contracts arranged by MTMC.

Consequently, MTMC is now proposing to change its policy, in order to offer brokers the opportunity to qualify for participation in DOD transportation procurements, except shipments requiring a Transportation Protective Services (TPS). Under MTMC's new policy, brokers interested in competing for DOD traffic, except TPS shipments, could apply for qualification by executing the basic Agreement, and by complying with requirements for submission of evidence of insurance (public liability and cargo), a list of underlying carriers which the broker intends to use in the movement of DOD shipments, a performance bond, and other standard requirements.
