[Project No. 1927]

Pacificorp; Notice of Authorization for Continued Project Operation

February 5, 1997.

On January 30, 1995, Pacificorp, licensee for the North Umpqua Project No. 1927, filed an application for a new or subsequent license pursuant to the Federal Power Act (FPA) and the Commission's regulations thereunder. Project No. 1927 is located on the North Umpqua River in Douglas County, Oregon.

The license for Project No. 1927 was issued for a period ending January 29, 1997. Section 15(a)(1) of the FPA, 16 U.S.C. 808(a)(1), requires the Commission, at the expiration of a license term, to issue from year to year an annual license to the then licensee under the terms and conditions of the prior license until a new license is issued, or the project is otherwise disposed of as provided in Section 15 or any other applicable section of the FPA. If the project's prior license waived the applicability of Section 15 of the FPA, then, based on Section 9(b) of the Administrative Procedure Act, 5 U.S.C. 558(c), and as set forth at 18 CFR

16.21(a), if the licensee of such project has filed an application for a subsequent license, the licensee may continue to operate the project in accordance with the terms and conditions of the license after the minor or minor part license expires, until the Commission acts on its application. If the licensee of such a project has not filed an application for a subsequent license, then it may be required, pursuant to 18 CFR 16.21(b), to continue project operations until the Commission issues someone else a license for the project or otherwise orders disposition of the project.

If the project is subject to Section 15 of the FPA, notice is hereby given that an annual license for Project No. 1927 is issued to Pacificorp for a period effective January 30, 1997, through January 29, 1998, or until the issuance of a new license for the project or other disposition under the FPA, whichever comes first. If issuance of a new license (or other disposition) does not take place on or before January 29, 1998, notice is hereby given that, pursuant to 18 CFR 16.18(c), an annual license under Section 15(a)(1) of the FPA is renewed automatically without further order or notice by the Commission, unless the Commission orders otherwise.

If the project is not subject to Section 15 of the FPA, notice is hereby given that Pacificorp is authorized to continue operation of the North Umpqua Project No. 1927 until such time as the Commission acts on its application for subsequent license.

[Docket No. CP94-207-003]

Southern California Gas Company; Notice of Amendment

February 5, 1997.

Take notice that on January 31, 1997, Southern California Gas Company (SoCal), located at 555 West Fifth Street, Los Angeles, California 90013-1011, filed an amendment in Docket No. CP94-207-003, pursuant to Section 3 of the Natural Gas Act (NGA) and Part 153 of the Commission's Regulations under the NGA, seeking to further amend the previously amended Section 3 authorization and the amended Presidential Permit, both issued May 22, 1995, to reflect a change in the location of pipeline and metering facilities it proposes to construct at the international boundary of the United States of America and Mexico.

Specifically, SoCal now seeks to amend the previous authorization in order to site the border-crossing facilities 1.3 miles west of the previously authorized export point. The revised border-crossing facilities would consist of a meter station and 600 feet of 16-inch diameter pipe running from the meter station to the international boundary.¹ According to SoCal, the proposed pipeline facilities will have the capacity to meet the expected demand of 40 MMcf of natural gas per day in the year 2000, although only 10 MMcf of natural gas per day would be exported initially.

SoCal request that such amendments be granted no later than March 1, 1997, to permit the economic, environmental and safety benefits of natural gas to be enjoyed in Mexicali, Mexico and the United States/Mexico border area at the earliest possible date, in order to provide the proposed service by July 15, 1997.0

Any person desiring to be heard or to make any protest with reference to said petition should, on or before February 26, 1997, file with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, DC 20426, a petition to intervene or protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.211 or 385.214) and the Regulations under the NGA (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules. Any person who has heretofore filed need not file again.

Secretary.
