

2. The date the application was initially submitted with respect to the animal drug product under section 512(b) of the Federal Food, Drug, and Cosmetic Act: March 12, 1996. The applicant claims March 7, 1996, as the date the new animal drug application (NADA) for DECTOMAX (NADA 141-061) was initially submitted. However, FDA records indicate that the date of FDA's official acknowledgment letter assigning a number to the NADA was March 12, 1996, which is considered to be the NADA initially submitted date.

3. The date the application was approved: July 30, 1996. FDA has verified the applicant's claim that NADA 141-061 was approved on July 30, 1996.

This determination of the regulatory review period establishes the maximum potential length of a patent extension. However, the U.S. Patent and Trademark Office applies several statutory limitations in its calculations of the actual period for patent extension. In its application for patent extension, this applicant seeks 527 days of patent term extension.

Anyone with knowledge that any of the dates as published is incorrect may, on or before April 14, 1997, submit to the Dockets Management Branch (address above) written comments and ask for a redetermination. Furthermore, any interested person may petition FDA, on or before August 11, 1997, for a determination regarding whether the applicant for extension acted with due diligence during the regulatory review period. To meet its burden, the petition must contain sufficient facts to merit an FDA investigation. (See H. Rept. 857, part 1, 98th Cong., 2d sess., pp. 41-42, 1984.) Petitions should be in the format specified in 21 CFR 10.30.

Comments and petitions should be submitted to the Dockets Management Branch (address above) in three copies (except that individuals may submit single copies) and identified with the docket number found in brackets in the heading of this document. Comments and petitions may be seen in the Dockets Management Branch between 9 a.m. and 4 p.m., Monday through Friday.

Dated: January 31, 1997.

Stuart L. Nightingale,

Associate Commissioner for Health Affairs.

#### Prohibited Acts in Owyhee National Wild and Scenic River Area

**AGENCY:** Vale District, Bureau of Land Management, Interior.

**ACTION:** Notice of amendment to closures and restrictions within the boundaries of the Main Owyhee River as established in the Main, West Little and North Fork Owyhee National Wild and Scenic Rivers Management Plan. Refer to Federal Register Notice Vol. 59, No. 240 dated Thursday, December 15, 1994.

**SUMMARY:** The Vale District is amending 2 closures or restrictions that were initiated as part of the implementation of the 1993 Main, West Little and North Fork Owyhee National Wild and Scenic Rivers Management Plan. One change is made to incorporate the original intent of requiring all float boaters to carry a firepan, and the other is to allow
