Users of this product who desire continued use on the crops being deleted should contact both the EPA contact person listed above, and the registrant at the following address: Dr. Don Carlson, FMC Corporation, Agricultural Chemicals Group, 1735 Market Street, Philadelphia, PA 19103; telephone: (215) 299-6436, to discuss withdrawal of the application for amendment before May 14, 1997. It should be noted however, that because these deletions are being proposed to reduce avian risk, it is incumbent on any proponent of further use to demonstrate that further use will not pose unreasonable risk to bird species. This 90-day comment period will also permit other interested members of the public to comment prior to the Agency's approval of the deletions.

IV. Existing Stocks Provisions

The Agency authorizes FMC Corporation to sell and distribute product labeled for use on grapes and strawberries for a period of 12 months after approval of the revision. Remaining stocks of flowable carbofuran labeled for use on grapes and strawberries in the hands of growers and distributors may be used until such stocks are depleted.
