#### SUPPLEMENTARY INFORMATION:

##### I. Introduction

Section 6(f)(1) of FIFRA, provides that a registrant of a pesticide product may at any time request that any of its pesticide registrations be amended to delete one or more uses. The Act further provides that, before acting on the request, EPA must publish a notice of receipt of any such request in the Federal Register. Thereafter, the Administrator may approve such a request.

##### II. Background

In August of 1995, EPA advised FMC Corporation of its concern for the acute avian risk posed by the use of flowable carbofuran. The Agency's concern was based on field reports and laboratory evidence of bird kills due to carbofuran use and misuse. In response to the Agency's concern, FMC Corporation has agreed to implement a number of measures intended to reduce the risk of flowable carbofuran to birds. Among these measures is the voluntary cancellation of flowable carbofuran use on grapes and strawberries.

##### III. Intent to Delete Uses

This notice announces receipt by the Agency of an application from FMC Corporation, to delete uses under section 3 or 24(c) of FIFRA. FMC submitted applications to amend its granular carbofuran registrations on June 15, 1996. These registrations are listed by registration number (or company number and 24(c) number) in the following Table 1.
