[Docket No. CP97-231-000]

CNG Transmission Corporation; Notice of Application

February 7, 1997.

Take notice that on February 4, 1997, CNG Transmission Corporation (CNG), 445 West Main Street, Clarksburg, West Virginia 26301, filed in Docket No. CP97-231-000 an application pursuant to Section 7(b) of the Natural Gas Act (NGA), for permission and approval to abandon, by sale to Ashland Exploration, Inc. (Ashland), certain certificated facilities, known as Line H-169 located in Big Sandy Township, Kanawha County, West Virginia. CNG also request that the Commission confirm the non-jurisdictional nature of Ashland's operation of the subject facilities, all as more fully set forth in the application on file with the Commission and open to public inspection.

It is stated that the facilities proposed to be abandoned herein, were constructed in 1925 and certificated in 1943, in Docket No. G-290 as part of Hope Natural Gas Company's grandfather certificate, of facilities under the Natural Gas Act. CNG states that since its restructuring of services under Order No. 636, that it no longer

has need of the minor certificated facilities that it is proposing to abandon in this proceeding. CNG avers that Line H-169 connects production owned by Ashland to CNG's 10-inch H-168 Line, and that it has classified both Lines H-169 and H-168 as gathering lines.

Specifically, CNG is proposing to abandon approximately 3.5 miles of 10-inch diameter pipeline, (and miscellaneous lengths of line ranging from 1-inch to 8-inches). CNG states that it intends to sell the facilities to Ashland for \$6,000.

It is indicated that Ashland is the only producer who has production located on the line proposed to be abandoned, and that no transportation contracts will be terminated by virtue of the proposed sale of facilities to Ashland.

CNG states that the Commission has consistently recognized that gas moving through pipelines in production areas with the size, length and pressure of Line H-169 are typical of gathering. CNG states that it therefore, believes that the Commission should confirm the non-jurisdictional nature of Ashland's operations of the line segments, once Ashland has acquired the facilities.

Any person desiring to be heard or to make any protest with reference to said application should on or before February 28, 1997, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the Natural Gas Act (19 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no motion to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that permission and approval for the proposed abandonment are required by the public convenience and necessity. If a motion for leave to intervene is timely filed, or if the

Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for CNG to appear or be represented at the hearing.

Lois D. Cashell,
Secretary.
