

Lake County, California. The Commission previously certified the facility as a 80 MW small power production Electric Company. According to the applicant, the recertification is requested to report a change in the ownership of the facility.

Comment date: February 28, 1997, in accordance with Standard Paragraph E at the end of this notice.

Standard Paragraph

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C. 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 18 CFR 385.214). All such motions or protests should be filed on or before the comment date. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Lois D. Cashell,

Secretary.

Agency Information Collection Activities Under OMB Review; Standards of Performance for New Stationary Sources NSPS Subpart KK—Lead Acid Battery Manufacturing Plants

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this notice announces that the Information Collection Request (ICR) for NSPS Subpart KK, lead acid battery manufacturing plants, described below has been forwarded to the Office of Management and Budget (OMB) for review and comment. The ICR describes the nature of the information collection and its expected burden and cost; where appropriate, it includes the actual data collection instrument.

DATES: Comments must be submitted on or before March 17, 1997.

FOR FURTHER INFORMATION OR A COPY CALL: Sandy Farmer at EPA, (202) 260-2740, and refer to EPA ICR No. 1072.05.

SUPPLEMENTARY INFORMATION:

Title: NSPS Subpart KK—Lead Acid Battery Manufacturing Plants (OMB Control No. 2060.0081; EPA ICR No. 1072.05). This is a request for an extension of a currently approved collection.

Abstract: Lead acid battery manufacturing plants emit lead particulates in quantities that, in the Administrator's judgment cause or contribute to air pollution that may endanger public health or welfare. Consequently, New Source Performance Standards to limit particulate emissions were promulgated for this source category. The recordkeeping and reporting requirements associated with this rule enable the Agency to: identify sources subject to the standard; ensure initial compliance with the emission limits; and verify continuous compliance. Responses to this collection of information are mandatory under the authority of Section 114(a) of the Clean Air Act. The required information consists of emissions data and other information that have been determined not to be private. However, any information submitted to the Agency for which a claim of confidentiality is made will be safeguarded according to the Agency policies set forth in Title 40, Chapter 1, Part 2, Subpart B—Confidentiality of Business Information (see 40 CFR 2; 41 FR 36902, September 1, 1976; amended by 43 FR 40000, September 8, 1978; 43 FR 42251, September 20, 1978; 44 FR 17674, March 23, 1979).

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR Part 9 and 48 CFR Chapter 15. The Federal Register Notice required under 5 CFR 1320.8(d), soliciting comments on this collection of information was published on August 30, 1996 (61 FR 45959).

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 1.5 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying

information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information. Under this standard, reporting requirements apply only to new sources. Since no new facilities are expected to commence operation over the next three years, there is no anticipated reporting burden to this industry. Recordkeeping is limited to start-up, shutdown and malfunction events.

Respondents/Affected Entities: Owners or Operators of Lead Acid Battery Mfg Plants.

Estimated Number of Respondents: 82.

Frequency of Response: 1 year.

Estimated Total Annual Hour Burden: 123 hours.

Estimated Total Annualized Cost Burden: \$4,310.

Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques to the following addresses. Please refer to EPA ICR No. 1072.05 and OMB Control No. 2060-0081 in any correspondence.

Ms. Sandy Farmer, U.S. Environmental Protection Agency, OPPE Regulatory Information Division (2137), 401 M Street, SW, Washington, DC 20460; and

Office of Information and Regulatory Affairs, Office of Management and Budget, Attention: Desk Officer for EPA, 725 17th Street, NW, Washington, DC 20503.

Dated: February 10, 1997.

Joseph Retzer,

Director, Regulatory Information Division.
