SUPPLEMENTARY INFORMATION

Background

The Service will issue separate findings on petitions to list the Queen Charlotte goshawk and the Alexander Archipelago wolf under the Endangered Species Act (Act) of 1973, as amended (16 U.S.C. 1531 *et seq.*).

Queen Charlotte Goshawk

The Queen Charlotte goshawk occurs in forested areas throughout coastal mainland and insular areas of British Columbia, Canada, and southeastern Alaska. On May 9, 1994, the Service received a petition to list the Queen Charlotte goshawk as endangered under the Act, from Mr. Peter Galvin of the Greater Gila Biodiversity Project, Silver City, New Mexico, and nine copetitioners including, the Southwest Center for Biological Diversity, the Biodiversity Legal Foundation, Greater Ecosystem Alliance, Save the West, Save America's Forests, Native Forest Network, Native Forest Council, Eric Holle, and Don Muller. On August 26, 1994, the Service announced a 90 day finding (59 FR 44124) that the petition presented substantial information indicating that the requested action may be warranted, and opened a public comment period until November 25, 1994. The Service extended the public comment period until February 28, 1995, through two subsequent Federal Register notices on January 4, 1995 (60 FR 425), and February 24, 1995 (60 FR 10344). The Service issued its 12-month finding on June 29, 1995 (60 FR 33784), indicating that listing the Queen Charlotte goshawk under the Act was not warranted.

On July 16, 1995, the petitioners filed a 60-day notice of intent to sue the Service over its 12-month finding, and on November 17, 1995, they filed suit in the United States District Court for the District of Columbia challenging the not warranted finding made by the Service. As a result of the court proceedings the

Service is reevaluating the status of the Queen Charlotte goshawk. The Service is requesting any information, data, comments, and suggestions from the public, other government agencies, the scientific community, industry, or other interested parties concerning the status of this species.

Alexander Archipelago Wolf

The Alexander Archipelago wolf occurs in forested areas of insular and mainland southeast Alaska, from Dixon Entrance (US/Canada border) to Yakutat Bay, including all large islands of the Alexander Archipelago except Admiralty, Baranof, and Chichagof islands. On December 17, 1993, the Service received a petition to list the Alexander Archipelago wolf as threatened under the Act, from the Biodiversity Legal Foundation, Eric Holle and Martin J. Berghoffen. A 90-day finding was made by the Service that the petition presented substantial information indicating that the requested action may be warranted. The 90-day finding was announced (59 FR 26476) and a status review was initiated on May 20, 1994. The public comment period was open between May 20, and October 1, 1994 (59 FR 26476 and 59 FR 44122). The Service announced its finding that listing the Alexander Archipelago wolf was not warranted on February 23, 1995 (60 FR 10056).

The petitioners issued a 60-day notice of intent to sue over the Service's not warranted finding on November 13, 1995. On February 7, 1996, they filed suit in the United States District Court for the District of Columbia challenging the not-warranted finding made by the Service. As a result of the court proceedings the Service is reevaluating the status of the Alexander Archipelago wolf. The Service is requesting any information, data, comments, and suggestions from the public, other government agencies, the scientific community, industry, or other interested parties concerning the status of this species.
