This form is the Commission's remittance advice and is to accompany any payment submitted with it. The purpose of the form is to provide the identity of the payor, the amount being paid, and the reason the payment is being made.

Specific identification of the payor, such as call sign, or the bill that was rendered, such as invoice number, is also required. This information facilitates the efficient and accurate processing of the Commission's collections by its designated entities, such as a lockbox bank. In Public Law 104-134, Chapter 10, Section 31001, signed April, 1966, the head of each Federal agency must require each person doing business with that agency to furnish to it such person's taxpayer identifying number. Effective July, 1996 the U.S. Treasury will "flag" (and notify the Commission) and all payment requests to anyone doing business with the U.S. Government, if their taxpayer identifying number has not been furnished. The information will be used by the FCC and the U.S. Treasury for purposes of collecting and reporting on any delinquent amounts arising out of such person's relationship with the Government. For businesses, the taxpayer identifying number is its Internal Revenue Service-issued employer identification number. This number is currently used by the FCC as the business' account number for identification purposes only. Obtaining a social security number from an individual is a new requirement imposed on all Federal agencies.
