### Natural Resources Defense Council Receipt of Petition and Issuance of a Director's Decision Under 10 CFR 2.206

Notice is hereby given that by Petition dated January 8, 1997, Thomas B. Cochran, on behalf of Natural Resources Defense Council (NRDC), requested that the Nuclear Regulatory Commission (Commission) take immediate action with regard to Envirocare of Utah, Inc. Specifically, the Petition requested NRC to take the following actions:

(1) Immediately revoke the license or licenses, or cause the state of Utah to revoke its agreement state license or licenses, under which Envirocare is currently permitted to accept low-level radioactive waste and mixed waste for permanent disposal.

(2) Immediately revoke the NRC 11e.(2) byproduct material license under which Envirocare is currently permitted to accept uranium mill tailings for disposal.

(3) Immediately revoke any other NRC license, or agreement state license, if such license exists, held by Envirocare, Khosrow Semnani, or any entity controlled or managed by Khosrow Semnani.

(4) Prohibit the future issuances of any license by the NRC, the State of Utah, or other NRC agreement state, to Khosrow Semnani or any company or entity which he owns, controls, manages, or [with which he] has a significant affiliation or relationship.

(5) Suspend the agreement with the state of Utah under which regulatory authority has been transferred from the NRC to the Utah's Bureau of Radiation [Division of Radiation Control], until the State of Utah can demonstrate that it can operate the Bureau of Radiation [Division of Radiation Control] in a lawful manner, and without the participation of licensees, or employees of licensees, in Bureau of Radiation [Division of Radiation Control] oversight roles.

As a basis for the request, the Petitioner asserts that on December 28, 1996, an article in *The Salt Lake Tribune* reported that between 1987 and 1995 Mr. Semnani made secret cash payments to Mr. Larry F. Anderson, who served as Director of the Utah Division of Radiation Control from 1983 until 1993. The article also reported that the Utah Attorney General's office has initiated a criminal investigation into the matter.

The NRC response to the Petitioner's request regarding the Agreement State program is provided in a "NRC Staff Evaluation of Natural Resources Defense Council Request to Suspend Section 274 Agreement With The State of Utah." The other issues raised in the Petition have been evaluated by the Director of the Office of Nuclear Material Safety and Safeguards. After review of the Petition, the Director has denied the Petitioner's requests.

The Director's Decision concluded that no substantial health and safety issues have been raised regarding Envirocare that would require initiation of the immediate action requested by the NRDC. The NRDC has not provided any information in support of its requests of which the NRC was not already aware. Moreover, NRC inspections of the Envirocare facility have not revealed the existence of extraordinary circumstances that would warrant immediate suspension of the Envirocare license. In addition, the staff's review of the technical basis for its issuance of the license and subsequent amendments found no evidence of the existence of any substantial health or safety issue that would justify the actions requested by the NRDC. However, NRC will monitor the investigations and actions being conducted by the State of Utah. If NRC receives any specific information that there is a public health or safety concern as a result of these actions or from any other source, including the NRC ongoing Agreement State oversight activities, NRC will evaluate that information and take such action as it deems is warranted at that time.

The complete "Director's Decision under 10 CFR § 2.206" (DD-97-02) is available for public inspection in the Commission's Public Document Room located at 2120 L Street, N.W., Washington, D.C. 20555. The Director's Decision is also available on the NRC Electronic Bulletin Board at (800) 952-9676.

A copy of this Decision will be filed with the Secretary for the Commission's review, in accordance with 10 CFR 2.206. As provided by this regulation, the Decision will constitute the final

action of the Commission 25 days after the date of issuance of the Decision unless the Commission on its own motion institutes a review of the Decision within that time.

Dated at Rockville, Maryland this 7th day of February 1997.

For the Nuclear Regulatory Commission.  
Carl J. Paperiello,  
Director, Office of Nuclear Material Safety and Safeguards.

[Docket No. 50-245]

### Northeast Utilities; Millstone Nuclear Power Station, Unit 1; Issuance of Director's Decision under 10 CFR 2.206

Notice is hereby given that the Acting Director, Office of Nuclear Reactor Regulation, has taken action with regard to a Petition dated January 5, 1995, by Mr. Anthony J. Ross (Petition for action under 10 CFR 2.206). The Petition pertains to Millstone Nuclear Power Station, Unit 1.

In the Petition, the Petitioner described several examples of what he alleged were violations of Procedure WC-8, which required that maintenance and test equipment be signed out from and returned to a custodian. The Petitioner requested that the U.S. Nuclear Regulatory Commission institute sanctions against his department manager, his first-line supervisor, and two co-workers for engaging in deliberate misconduct in violation of 10 CFR 50.5. The Petitioner also asserted that the NRC "desperately needs to conduct an investigation" into the procedure violations and to audit the Millstone Unit 1 maintenance department measuring and test equipment folders to reveal widespread problems regarding noncompliance with this procedure.

The Acting Director of the Office of Nuclear Reactor Regulation has determined to grant the Petition in part, and deny the Petition in part. The reasons for this decision are explained in the "Director's Decision Under 10 CFR 2.206" (DD-97-04), the complete text of which follows this notice and is available for public inspection at the Commission's Public Document Room, the Gelman Building, 2120 L Street, N.W., Washington, DC, and at the local public document room located at the Learning Resources Center, Three Rivers Community-Technical College, 574 New London Turnpike, Norwich, Connecticut, and at the temporary local public document room located at the Waterford Library, ATTN: Vince
