SUPPLEMENTARY INFORMATION:

Title: Certificate of Quota Eligibility
OMB NUMBER: 0551-0014.

Expiration date of approval: April 30, 1997.

Type of request: Extension and revision of a currently approved information collection.

Abstract: The Harmonized Tariff Schedule of the United States (HTS) authorizes the Secretary of Agriculture to establish the quantity of raw cane sugar which may be entered at the low-tier rates of the tariff-rate quota (TRQ). The terms under which Certificates of Quota Eligibility will be issued to foreign countries that have been allocated a share of the TRQ are set forth in 15 C.F.R. Part 2011, Subpart A, allocation of Tariff-rate quota on Imported Sugars, Syrups, and Molasses. The authority for Certificates of Quota Eligibility is additional U.S. note 5(b)(iv) to chapter 17 of the HTS.

The regulations, promulgated by the U.S. Trade Representative, provides for the issuance of Certificates of Quota Eligibility by the Secretary of Agriculture, and in general prohibits sugar subject to the TRQ from being imported into the United States or withdrawn from warehouse for consumption at the low-tier duty rates unless such sugar is accompanied by a Certificate of Quota Eligibility. Certificates of Quota Eligibility are issued to foreign countries by the "Licensing Authority" who is the Team Leader, Import Quota Programs, Import Policies and Programs Division, Foreign Agricultural Service, United States Department of Agriculture, or his or her designee. The issuance of Certificates of Quota Eligibility is in such amounts and at such times as the Secretary determines are appropriate to enable the foreign country to fill its quota allocation for such quota period in a reasonable manner, taking into account traditional shipping patterns, harvesting period, U.S. import requirements, and other relevant factors.

The information required to be collected on the Certificate of Quota Eligibility is used to monitor and control the imports of sugar. Proper completion of the certificate of quota eligibility is mandatory for those foreign governments that are eligible and elect to export raw sugar to the United States under the provisions of the tariff-rate quota.

Estimate of burden: The public reporting burden for these collections vary in direct relation to the number of Certificates of Quota Eligibility issued.

Respondents: Foreign governments.

Estimated number of respondents: 40 per annum.

Estimated number of responses per respondent: 15 per annum.

Estimated total annual burden of respondents: 100 hours.

SUPPLEMENTARY INFORMATION:

Background

The statutory authority for the ATP is Section 5131 of the Omnibus Trade and Competitiveness Act of 1988 (Pub. L. 100-418, 15 U.S.C. 278n), as modified by Pub. L. 102-245. The ATP implementing regulations are published at 15 CFR part 295. The Catalog of

Federal Domestic Assistance (CFDA) number and program title for the ATP are 11.612, Advanced Technology Program (ATP).

The ATP is a rigorously competitive cost-sharing program designed to assist United States industry/businesses pursue high-risk, enabling technologies with significant commercial/economic potential. The ATP provides multi-year funding to single companies and to industry-led joint ventures to pursue research and development (R&D) projects with high-payoff potential for the nation. The ATP accelerates enabling technologies that, because they are risky, are unlikely to be developed in time to compete in rapidly changing world markets without such a partnership between industry and the Federal government. The ATP challenges industry to take on projects characterized by high technical risk but commensurately high potential payoff to the nation. Proposers must provide credible arguments as to the project feasibility.

The funding instrument used in ATP awards is a "cooperative agreement." Through the cooperative agreement, the ATP fosters a government-industry partnership to accomplish a public purpose of support or stimulation. NIST plans a substantial role in these awards by providing technical assistance and monitoring the technical work and business progress.

Funding Availability

An estimated \$15 million in first year funding is available for each of the Focused Program Competitions 97-04, 97-05, and 97-06. An estimated \$12 million in first year funding is available for Focused Program Competition 97-07. The ATP reserves the right to utilize for any competition more or less funding than the amounts stated above. The actual number of proposals funded will depend on the quality of the proposals received and the amount of funding requested in the highest ranked proposals. Outyear funding beyond the first year is contingent on the approval of future Congressional appropriations and satisfactory project performance.

Eligibility Requirements, Selection Criteria, and Proposal Review Process

The eligibility requirements, selection criteria, and the proposal review process are discussed in detail in the ATP implementing regulations published at 15 CFR Part 295.

Funding Amounts, Award Period and Cost Sharing (Matching) Requirements

(a) Single companies can receive up to \$2 million of ATP funds for up to 3
