

Name of Meeting: U.S. Army Command and General Staff College (CGSC) Advisory Committee.

Dates of Meeting: 30 April—2 May 1997.

Place: Bell Hall, Room 113, Fort Leavenworth, Kansas 66027-1352.

Time: 1700-2200, 30 April 1997; 0730-2100, 1 May 1997; 0730-2100, 2 May 1997.

Proposed Agenda:

1700-2200, 30 April: Review of CGSC educational program.

0730-2100, 1 May: Continuation of review.

0730-1030, 2 May: Continuation of review.

1030-1130, 2 May: Executive Session.

1300-1400, 2 May: Report of Commandant.

FOR FURTHER INFORMATION CONTACT:

Philip J. Brookes, USACGSC Advisory Committee, One Reynolds Ave., Bell Hall, Room 123, Fort Leavenworth, Kansas 66027-1352; Phone (913) 684-2741.

SUPPLEMENTARY INFORMATION: The purpose of the meeting is for the Advisory Committee to examine the entire range of college operations and, where appropriate, to provide advice and recommendations to the College Commandant and faculty.

The meeting will be open to the public to the extent that space limitations of the meeting location permit. Because of these limitations, interested parties are requested to reserve space by contacting the Committee's Executive Secretary: Philip J. Brookes at the above address or phone number.

Gregory D. Showalter,

Army Federal Register Liaison Officer.

Corps of Engineers

Intent To Prepare a Draft Environmental Impact Statement for Cherry Creek Dam Safety Evaluation Denver, Colorado

AGENCY: U.S. Army Corps of Engineers, DOD.

ACTION: Notice of intent.

SUMMARY: Cherry Creek Dam was constructed in the 1940's by the Corps of Engineers primarily to provide flood control for the City of Denver. Although the project became operational in 1950, the facility was operated without a permanent pool until 1958. The State of Colorado, through its Department of Parks and Outdoor Recreation, operates the project as Cherry Creek State Park.

A 1993 reconnaissance-level report by the Corps revealed that the dam does not meet the level of safety currently required for such a project when located upstream from a major metropolitan area. The proposed action is to provide increased flood storage capacity, an increase in emergency spillway capacity, or a combination of the two, so as to bring the project up to current dam safety guidelines/requirements.

In accordance with the National Environmental Policy Act of 1969 and implementing regulations, an environmental impact statement will be prepared to analyze the impacts of the proposed action and alternatives. Public scoping meetings have been scheduled to solicit comments regarding the scope of the environmental studies.

FOR FURTHER INFORMATION CONTACT:

Questions about the proposed action and Environmental Impact Statement should be directed to: Ms. Candace M. Thomas, Chief, Environmental Analysis Branch, U.S. Army Corps of Engineers, 215 North 17th Street, Omaha, Nebraska 68102-4978; telephone (402) 221-4598, FAX (402) 221-4886.

SUPPLEMENTARY INFORMATION: A selected plan has yet to be defined. A number of possible alternatives were identified in the 1993 report; it is planned to refine the number of alternatives in the current study. The alternatives most likely to be studied in detail in the EIS are as follows:

- No Federal Action.
- A dam rise.
- A supplemental spillway.
- A combination of dam raise and addition of a supplemental spillway.
- Supplemental upstream storage.
- Other, partial solutions such as closing the existing spillway and/or changes to the existing outlet works capacity.

An afternoon public open house and evening scoping meeting have been scheduled for March 4, 1997 at 2:00 p.m. and 7:00 p.m. respectively at the Holiday Inn Denver Southwest, 3200 South Parker Road, Aurora, Colorado. The purpose of these meetings is to solicit input on issues, alternatives to be evaluated, and potential environmental effects. Written comments will also be solicited.

Potential significant environmental issues include possible impacts to threatened and endangered species, wetlands, upstream areas of special biological significance, and social and economic impacts to upstream and downstream residences and businesses.

Other applicable and pertinent environmental review and consultation requirements will be undertaken

simultaneously with the NEPA process, including requirements of the Endangered Species Act, Fish and Wildlife Coordination Act, National Historic Preservation Act, Clear Water Act, Clear Air Act, and others.

Gregory D. Showalter,

Army Federal Register Liaison Officer.

BILLING CODE 3710-62-M

DELAWARE RIVER BASIN COMMISSION

Notice of Commission Meeting and Public Hearing

Notice is hereby given that the Delaware River Basin Commission will hold a public hearing on Wednesday, February 26, 1997. The hearing will be part of the Commission's regular business meeting which is open to the public and scheduled to begin at 2:00 p.m. in the Goddard Conference Room of the Commission's offices at 25 State Police Drive, West Trenton, New Jersey.

An informal conference among the Commissioners and staff will be held at 11:00 a.m. at the same location and will include a presentation on the Christina River Basin point and nonpoint study; a demonstration on the New Castle County GIS program; discussion of proposed amendments to the Southeastern Pennsylvania Ground Water Protected Area Regulations and a review of Basin States' policies on discharges to intermittent streams.

In addition to the subjects listed below which are scheduled for public hearing at the business meeting, the Commission will also address the following matters: Minutes of the January 22, 1997 business meeting; announcements; General Counsel's report; report on Basin hydrologic conditions, a resolution concerning funding in connection with the Christina Basin study and public dialogue.

The subjects of the hearing will be as follows:

Applications for Approval of the Following Projects Pursuant to Article 10.3, Article 11 and/or Section 3.8 of the Compact:

1. New York State Department of Environmental Conservation (NYSDEC) D-77-20 CP (Revision No. 3). An application to add the schedule of experimental augmented conservation releases for Cannonsville Reservoir to the current experimental augmented conservation release program of the Pepacton and Neversink Reservoirs. Along with the Cannonsville Reservoir program, the applicant requests an
