[Docket No. CP94-161-006]

Avoca Natural Gas Storage; Notice of Amendment

February 18, 1997.

Take notice that on February 11, 1997, Avoca Natural Gas Storage (Avoca), One Bowdoin Square, Boston, MA 02114, filed in Docket No. CP94-161-006, pursuant to Section 7(c) of the Natural Gas Act, an amendment to the certificate of public convenience and necessity issued by the Commission on September 20, 1994, in Docket No. CP94-161-000. Avoca seeks to construct a brine pipeline, all as more fully set forth in the amendment which is on file with the Commission and open to public inspection.

Specifically, Avoca seeks to amend its certificate to change the method of brine disposal. Avoca proposes to construct a 45-mile brine pipeline from its storage facility in Avoca, NY to two salt processing plants in Watkins Glen, NY. Avoca states that this will provide it with a viable means of disposing of the brine that will be generated from solution mining of the salt caverns that will be used to store natural gas. As authorized, Avoca was to drill disposal wells into which the brine created by the solution mining of the salt caverns would be injected. However, it has been determined that this method is no longer a viable option for disposal of brine.

Any person desiring to be heard or to make any protest with reference to said amendment should on or before March 11, 1997, file with the Federal Energy Regulatory Commission, Washington, DC 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this amendment if no motion to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a motion for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Avoca to appear or be represented at the hearing.

Lois D. Cashell,
Secretary.
