Approval and Promulgation of Air Quality Implementation Plans; Maryland; Control of Volatile Organic Compound Emissions From Open Fires, "Once-in, Always-in," and Definition for the Term "Annual"

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA proposes to approve the State Implementation Plan (SIP) revision submitted by the State of Maryland on July 12, 1995 and July 17, 1995. These revisions establish a definition for the term "annual," expand Maryland's once-in, always-in provisions, and institute an open burning ban in Maryland's serious and severe ozone nonattainment areas during the summer months. In the Final Rules section of this Federal Register, EPA is approving the State's SIP revision as a direct final rule without prior proposal because the Agency views this as a noncontroversial SIP revision and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to this proposed rule, no further activity is contemplated in relation to this rule. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. EPA will not institute a second comment period on this action. Any parties interested in commenting on this action should do so at this time.

DATES: Comments must be received in writing by March 27, 1997.

ADDRESSES: Written comments on this action should be addressed to David L. Arnold, Chief, Ozone/CO and Mobile Sources Section, Mailcode 3AT21, U.S. Environmental Protection Agency, Region III, 841 Chestnut Building, Philadelphia, Pennsylvania 19107. SUMMARY: The United States Environmental Protection Agency (USEPA) is proposing to approve a State Implementation Plan (SIP) revision submitted by the State of Ohio on August 30, 1996, which would provide Ford Motor Company an extended exemption from opacity limitations for start-up of coal-fired boilers at its Cleveland Engine Plant 1.
