SUPPLEMENTARY INFORMATION: The FAA published the direct final rule with a request for comments in the Federal Register on November 29, 1996, (61 FR 60525). The FAA uses the direct final rulemaking procedure for a non-controversial rule where the FAA believes that there will be no adverse public comment. The direct final rule advised the public that no adverse comments were anticipated, and that unless a written adverse comment, or a written notice of intent to submit such an adverse comment, were received within the comment period, the regulation would become effective on March 27, 1997. No adverse comments were received, and thus this document confirms that the final rule will become effective on that date.
