ACTION: Notice of availability of the Draft Environmental Impact Statement: DES 97-7.

SUMMARY: Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, as amended, the Department, and the District have issued a joint Draft Environmental Impact Statement (Draft EIS) on the Uintah Unit Replacement Project (Uintah Unit). The Draft EIS consists of a proposed action and alternatives to construct a combination of features that will develop water supplies for the Uintah Unit of the Central Utah Project in the Uinta Basin of northeastern Utah. The Draft EIS evaluates the environmental impacts of water storage reservoirs, improved diversion and distribution of water, water conservation, stabilization of high mountain lakes, instream flows, fish and wildlife mitigation and enhancement, recreation developments and land retirement.

There is a need to manage the water supply within the Uintah Unit to develop resources of the Ute Indian Tribe of the Uintah and Ouray Reservation, provide early and late season irrigation water, and provide water and facilities for environmental and recreation purposes. The proposed action and alternatives seek to meet
