

nonprofit and for-profit organizations such as businesses, Employee Assistance Programs (EAPs), health care service organizations, research institutes, universities, colleges, and hospitals, and by organizations, such as units of State or local government.

Substance abuse prevention and early intervention programs may be co-located with other managed care services or may be organizationally or geographically separate. If separate, linkages must be clearly described.

- Cooperative Agreements/Amounts: It is estimated that approximately \$4 million will be available to support approximately 10–15 awards under this GFA in FY 97. It is anticipated that the average award will be in the \$275,000 to \$500,000 range. Actual funding levels will depend upon the availability of funds.

5. Public Health System Reporting Requirements

The Public Health System Impact Statement (PHSIS) is intended to keep State and local health officials apprised of proposed health services grant and cooperative agreement applications submitted by community-based nongovernmental organizations within their jurisdictions.

Community-based nongovernmental service providers who are not transmitting their applications through the State must submit a PHSIS to the head(s) of the appropriate State and local health agencies in the area(s) to be

affected not later than the pertinent receipt date for applications. This PHSIS consists of the following information:

- a. A copy of the face page of the application (Standard form 424).

- b. A summary of the project (PHSIS), not to exceed one page, which provides:

- (1) A description of the population to be served.

- (2) A summary of the services to be provided.

- (3) A description of the coordination planned with the appropriate State or local health agencies.

State and local governments and Indian Tribal Authority applicants are not subject to the Public Health System Reporting Requirements.

Application guidance materials will specify if a particular FY 1997 activity described above is/is not subject to the Public Health System Reporting Requirements.

6. PHS Non-Use of Tobacco Policy Statement

The PHS strongly encourages all grant and contract recipients to provide a smoke-free workplace and promote the non-use of all tobacco products. In addition, Public Law 103–227, the Pro-Children Act of 1994, prohibits smoking in certain facilities (or in some cases, any portion of a facility) in which regular or routine education, library, day care, health care, or early childhood development services are provided to children. This is consistent with the PHS mission to protect and advance the physical and mental health of the American people.

Specific application guidance materials may include more detailed guidance as to how a Center will implement SAMHSA’s policy on promoting the non-use of tobacco.

7. Executive Order 12372

Applications submitted in response to all FY 1997 activities listed above are subject to the intergovernmental review requirements of Executive Order 12372, as implemented through DHHS regulations at 45 CFR Part 100. E.O. 12372 sets up a system for State and local government review of applications for Federal financial assistance. Applicants (other than Federally recognized Indian tribal governments) should contact the State’s Single Point of Contact (SPOC) as early as possible to alert them to the prospective application(s) and to receive any necessary instructions on the State’s review process. For proposed projects serving more than one State, the applicant is advised to contact the SPOC

of each affected State. A current listing of SPOCs is included in the application guidance materials. The SPOC should send any State review process recommendations directly to: Office of Extramural Activities Review, Substance Abuse and Mental Health Services Administration, Parklawn Building, Room 17–89, 5600 Fishers Lane, Rockville, Maryland 20857.

The due date for State review process recommendations is no later than 60 days after the specified deadline date for the receipt of applications. SAMHSA does not guarantee to accommodate or explain SPOC comments that are received after the 60-day cut-off.
