BILLING CODE 5000-04-F

Department of the Army

Supplemental Environmental Impact Statement on Final Site Selection and Authorization for Implementation of Multi-Purpose Range Complex-Heavy, Camp Shelby, MS; De Soto National Forest, Forrest and Perry Counties, MS

AGENCY: Department of the Army, National Guard Bureau; U.S. Department of Agriculture (USDA), Forest Service.

ACTION: Notice of intent.

SUMMARY: The National Guard Bureau, as co-lead agency with the USDA, Forest Service, will cooperatively participate in the preparation of a Supplemental Environmental Impact Statement (SEIS) to the Final Environmental Impact Statement (FEIS) for Military Training Use of National Forest Lands, Camp Shelby, Mississippi. The SEIS will identify sites evaluated by both agencies for consideration in selection of a final site for the Multi-Purpose Range Complex-Heavy (MPRC-H) location and disclose new information relevant to environmental concerns having a bearing on the proposed action.

Description of Proposed Action

The National Guard Bureau proposes to construct, operate, and maintain a MPRC-H facility within the Operations Area at Camp Shelby. The project area includes National Forest System lands on the De Soto National Forest that are currently utilized for military training activities under terms and conditions of a special use permit issued by the

United States Department of Agriculture, Forest Service.

The MPRCH-H is a standard Army gunnery range which has three maneuver avenues. Only "practice" ammunition will be fired within the target array. The proposed project would consist of the range operation and control area, the downrange area, and the vehicle holding and maintenance area.

Preliminary Alternatives

Two sites were initially studied in the original special uses EIS. Since that time, numerous alternative sites have been examined by both agencies. Three alternative sites, plus the no action alternative, have been identified for further analysis in this supplement. The surface danger zones all remain within the current buffer zone of the dedicated impact area.

No Action Alternative: The No Action alternative provides a basis for describing the proposed action and other alternatives.

Range 41: This site overlays an existing tank gunnery range (Range 41) in the northern third of the impact area.

FS3: This site is located northeast of the Range 41 site and has a southeasterly orientation directed towards the northeast corner of the dedicated impact area.

FS4: This site is located north of the Range 41 site and has a southeasterly orientation directed towards the northwest corner of the dedicated impact area.

Supplemental EIS Availability

The draft supplement to the spring of 1997. The responsible officials will consider the comments, responses, environmental consequences discussed in the final supplement in making a decision regarding this proposal. Each responsible official will document their decision and reasons for the decision in a Record of Decision (ROD). The Forest Service Record of Decisions will be issued along with the final supplement and will be subject to administrative review (appeal) under 36 CFR 215. The Record of Decision will address the final site selection and authorization for construction and operation of an MPRC-H on Camp Shelby Training Site under a Special Use Permit for occupation and use of National Forest administered lands. A scoping meeting will be scheduled during March 1997 with a draft supplement to follow. Comments and suggestions can be forwarded to the following individuals: (1) Lieutenant Colonel Parker Hills, Public Affairs Office, Mississippi Army National Guard, P.O. Box 5027, Jackson,
