Great Lakes states that on February 3, 1997, in Docket No. RP96-317-000, the Commission issued an order accepting Great Lakes' proposal to implement a revised fuel allocation methodology to reflect a more distance sensitive methodology than the present zone-based method presently utilized. Under the revised fuel allocation methodology, Great Lakes' Transporter's Use percentages applicable to transportation services are to be determined on a 75-mile basis.

Pursuant to the Commission's February 3, 1997 order, Great Lakes filed the revised tariff sheets to implement the approved revision to the methodology for allocating system fuel and other use gas, and the corresponding determination of Transporter's Use percentages, from a zone-based methodology to a 75-mile based methodology. Great Lakes requested that the revised tariff sheets filed herein become effective on April 1, 1997.

Great Lakes states that copies of its filing were served on each of its firm customers, parties on the official service list in this proceeding, and the Public Service Commissions of the States of Minnesota, Wisconsin and Michigan.
