Description: Section 64.1504 incorporates in the Commission's rules the requirements of Sections 228(c)(7)-(10) that restrict the manner in which toll-free numbers may be used to charge telephone subscribers for information services. Common carriers must prohibit the use of toll free numbers in a manner that would result in the calling party being charged for information conveyed during the call, unless the calling party (1) has executed a written agreement that specifies the material terms and conditions under which the information is provided or (2) pays for the information by means of a credit, prepaid, debit, charge, or calling card and the information service provider includes in response to each call an introductory message disclosing specified information detailing the cost and other terms and conditions for the service. Sections 228(c)(8)A and (c)(9) list, respectively, required elements of the written agreement and the introductory message. The disclosure requirements are intended to ensure that consumers know when charges will be levied for calls to toll-free numbers and are able to obtain information necessary to make informed choices about whether to purchase toll-free information services.

OMB Control No.: 3060-0710.

Expiration Date: 02/28/2000.

All of the requirements would be used to ensure that local exchange carriers comply with their obligations under the Telecommunications Act of 1996.

OMB Control No.: 3060-0536.

Expiration Date: 08/31/97.

Title: Rules and Requirements for Telecommunications Relay Services (TRS) Interstate Cost Recovery.

Form No.: FCC Form 431.

Estimated Annual Burden: 15,593 total annual hours; 3.1 hours per respondent (avg.); 5,000 respondents.

Description: Title IV of the Americans with Disabilities Act of 1990 (ADA) requires the Commission to ensure that telecommunications relay services are available, to the extent possible, to individuals with hearing and speech disabilities in the United States. To fulfill this mandate, the Commission adopted rules that require the provision of TRS service beginning July 26, 1993. The Commission set minimum standards for TRS providers and established a shared-funding mechanism (TRS Fund) for recovering the costs of providing interstate TRS. The Commission also appointed the National Exchange Carrier Association (NECA) the TRS fund administrator, and directed NECA to establish a non-paid, voluntary advisory committee to monitor cost recovery matters.

The Commission's rules require all carriers providing interstate telecommunications services to contribute to the TRS Fund. The amount contributed is the product of the carrier's gross interstate revenues for the previous year and a contribution factor determined annually by the Commission. Contributions are calculated in accordance with a TRS Fund Worksheet which is prepared each

year by the Commission and published in the Federal Register. The TRS Fund Worksheet, FCC Form 431, is being updated for the 1997 reporting year. A public notice will be issued when the revised FCC Form 431 is available for public use.

Public reporting burden for the collections of information is as noted above. Send comments regarding the burden estimate or any other aspect of the collections of information, including suggestions for reducing the burden to the Records Management Branch, Washington, D.C. 20554.
